Dan,

I am cc'ing Special Agent [REDACTED] [REDACTED] of the FBI, and her partner Detective [REDACTED] [REDACTED] of the NYPD. SA [REDACTED] and Det. [REDACTED] were the lead investigators on the SDNY case, and they will be the FBI's points of contact regarding both of the issues you've raised.

With respect to the suspected child pornography, please contact SA [REDACTED] to coordinate the formal report. The best way to reach her is either by email at [REDACTED] or by phone at [REDACTED].

With respect to the HP computer, SA [REDACTED] and Det. [REDACTED] are working with their colleagues to identify the specific computer you requested. Once they have identified the correct device, we will reach back out to discuss the logistics of providing data from that device to the estate.

Best,  
[REDACTED]

[REDACTED]

In reviewing videos on behalf of the Epstein Estate in response to subpoenas issued in litigation against JPMorgan and Deutsche Bank in the SDNY, one of the document reviewers came across a video that may contain child pornography. Can you send the name of the FBI agents on the case so that we can report the finding and/or get direction on how best to proceed with formally reporting it?

Thanks,  
Dan

Dan,

Thank you for following up. I will pass this along to the rest of the case team in SDNY and at the FBI, and will reach back out to you once we have been able to discuss and look into your request.

Best,

Subject: [EXTERNAL] Estate of Jeffrey Epstein

Dear [REDACTED],

I am following up on our conversation from earlier this week. As I mentioned, we represent Richard Kahn, one of the two co-executors of the estate of Jeffrey Epstein, and are hoping to gain access to one of the computers that was seized from Epstein's properties on the island known as Little St. James. The computer was an HP Slim Tower and was located in what was referred to as the "generator room." I don't have a serial number and am aware that there are more than one HP computer that was seized. But hopefully the location is enough to identify the relevant computer.

Thanks,

Dan
