So there is 1 thumb drive not on my list. It was a 4 GB thumb drive, and it did not image. I believe it was 1B39. I do not have 1B38, 39, & 40 with me anymore. They have been checked back into evidence (verified in Sentinel) 1B38 & 40 are actually listed under Island evidence and were processed with the Island Windows machines.

As for the iPads, there are 6. I have them all, and all but 1 have been unlocked and processed. 2 were processed locally, so I need to copy those reports up to the SAN. 1B69 is awaiting unlocking. I will see what the status is with that.

As for the iPhone 5, 1B55, it is at HQ for unlocking.

The reason these things were not on my spreadsheet is because I was going off what I have on the SAN. If something is not in front of me, it went unaccounted for. Now that I have that sheet from [REDACTED], I will be able to match things up. Anything further, let me know.

There appears to be 2 thumb drives and an iPhone missing from your list. You also have 3 ipad's on your list, there are 4 on the evidence list (1B72, 1B69, 1B68, and 1B67).

Thanks,
