I see. Generally, we turn over image files for discovery and not the documentation until we are into trial prep. I realize things may be different here because of the complexities. Does she have a timetable? I am in Colorado now for my sister's memorial service, and next week at CART Moot Court. I won't be back in the office till the 31st.

Ah ok. It sounds like she is looking for documentation that devices were processed by CART on whatever date to turn over for discovery.

I know in the past, she has worked with [REDACTED] from our Hudson Valley RA. What she is referring to is known as our notes, but those aren't complete until the exam is over. Is she looking for some preliminary stuff? Also, to what end?

Understood. [REDACTED] said that from past FBI cases she understood that CART completed some type of paperwork that documented the date of data extractions, not necessarily 302s but some type of documentation. Is there some type of paperwork for this that we can pass along to them?

Thanks,

No paperwork has been generated since the process is on going. That gets done after the review is complete and electronic reports have been generated.

Hey [REDACTED],

Hope you're doing well. I was hoping to connect with you about some Epstein related evidence extractions. [REDACTED] is asking for the below info. Is this something you can provide?

CART paperwork regarding the extraction of data from all devices seized during the investigation

- All 302s regarding the extraction of data from any seized devices including from Epstein's properties.

Let me know your thoughts.
Thanks!
