Prepared for trial testimony. JA's previously undisclosed, clarifying, or different recollections below

- JA's best recollection now is that the main house of JE's PB residence had 8 bathrooms and 6 bedrooms
- GM told JA that she was the boss of JE's homes in NY, Paris, NM, New Albany (where Wexner was), and JE's private island
- JA recalls that GM told him not to engage in conversation with JE approximately during JA's last year of employment
- JA recalls that GM told him not to look in JE's eyes about 6 or 8 months before JA stopped working for JE
- Either GM or JE's secretary from the office in NY would direct JA to pick up females from the airport
- JA does not recall GM or JE ever telling JA where specifically they were going on a particular flight out of Palm Beach

- When masseuses would arrive to massage JE, if the masseuse was a repeat who had been to the house before, JA didn't go upstairs with them. If the masseuse was a new girl, then JA would go upstairs and help set up the massage table before the massage.
- JA recalls that the massagers remained in massage room, while the penis vibrators went in the basket in GM's bathroom
- JA saw a nude photograph of Maxwell in her bathroom, and another nude photograph of GM in the pool house
- JA never saw GM pregnant
