LV shown GX-12 and confirmed that first and last name on this document are the first and last name of [REDACTED] who was a passenger on JE's plane in the mid-1990s.

Prepared for trial testimony. LV clarified that he could tell that GM & JE were in a personal relationship in the 1990s based on the way they interacted. For example, they would make travel plans together and talk about where they wanted to go, but then in the early 2000s, GM was really just traveling where JE wanted to go and was acting as support to JE.
