**Subject:** Teams Meeting with ATT

Microsoft Teams with Phil Fanara  
Tamika Williamson (ATT)

[REDACTED]

- Witness prep
- Phil is familiar with the appearance of AT&T records from 2004. This appears to contain the same data, is consistent, and does not appear to be altered
- AT&T has an internal billing report that generates information like this rather than actual bill that goes to customers. Same data, but that's what AT&T relies on, not the bills themselves.
