Hello [REDACTED]

Attached is the overlay file that I got from the vendor. The overlay file contains the production number, file name and the MD5 Hash. Please let me know if there are any questions.

Thank you.

Thank you! The issue with production 11 is that defense counsel has expressed difficulty reviewing the metadata on the images contained in the production. In particular, the FBI created the attached spreadsheet, which listed the metadata the FBI was able to extract from the images, but defense counsel has indicated they have no way of knowing which bates numbered image in the production corresponds with which row in the spreadsheet. I'm hoping there's something in the production we can point them to that will help them match up each bates number with each row in the spreadsheet.

3 PM would be fine. Please send me the conference call information.

Thank you.

I'll be stuck in a meeting at 2pm. Would 3pm or later work, please?

How about 2 PM today? I can have the vendor on the call as well to discuss production 11. Do you have any information regarding the issue with production 11?

Please send conference call information.

Thank you.

Not a problem. Do you know what time you would like to meet and let me know what the issues are regarding the production?

Thank you.

H [REDACTED]

Would you have time for a call to address another question that has come up regarding the SDNY_PROD011 Maxwell production, please?

Thanks.
