In connection with the Epstein / Maxwell case there are approximately several thousand images that were obtained from several DVDs/CDs and several devices, including computers and hard drives that were seized pursuant to several search warrants executed at Epstein properties in 2019. The images were primarily of clothes and nude adult women, including Maxwell herself. There were also about a dozen images of see Sam that were from one device which also contains some images of child erotica.

All images were produced to defense attorneys during discovery.
