(U//FOUO) Wall Street Journal: There Were 'Serious Irregularities' at Federal Jail Where Jeffrey Epstein Died, Barr Says by Sadie Gurman: Investigators [probing the apparent suicide](#) of Jeffrey Epstein have found "serious irregularities" at the federal jail in New York where the disgraced financier was being held on sex-trafficking charges, Attorney General William Barr said Monday. Mr. Epstein, 66, [died Saturday](#) in the Manhattan detention facility. He had been put in the suicide-

watch unit July 23 after he was [found in his cell unconscious](#) and with marks on his neck. But he was taken off suicide watch late last month at the request of his attorneys, people familiar with the matter said. In the hours before his death, jail officials apparently failed to follow several protocols, leaving him alone and with minimal supervision.
