DOJ posted the 2 videos (see the embedded memo in the news article:

The Director just called and advised media is reporting there is a 1-minute omission of footage which I've just confirmed at the 11:58:58 mark on both original and enhanced videos. Both go from 11:58:58 to 12:00:00 so a gap of footage for 1 minute and 2 seconds.

Can you please confirm the original NY MCC video footage does/does not include this gap or if in conversion, somehow the gap in footage can be explained?

Priority asap within the hour, as if we need to replace video links, we will need to send to DOJ to update the links. If the gap is explained as appearing in the original footage from MCC, was there any reason for this?

Thank you in advance for immediate attention.
