Do you need any additional personnel or assets this week? Let me know and I will surge some to you immediately.

As an FYI, we were informed by SDNY that the AG has ordered that several members of the BOP staff at MCC be suspended tomorrow.

We have a concern this may impact a staff member's willingness to be interviewed. To that end, C19, with assistance from Branch C if needed, will be making every effort to get those MCC staff members interviewed today. The priority will be those that first found Epstein unresponsive.

The BOP Union is involved, which may complicate the facilitation of the interviews.
