1B46: CART download of a celebrite report (80GB) of a contraband phone that was seized at MCC after the Epstein suicide. Phone contained typical contraband phone items, such as pornography, text messages to family of the inmate using the phone and friends, large number of memes, games, and photos. Nothing relating to Epstein or his death. Phone belonged to Inmate Michael Thomas. The phone was initially seized by BOP-OIG and turned over to the FBI.

1B53: MCC video containing 147 cameras (8.08 TB of data) that were active before and after Epstein was found dead. Each video is 24 hours long. The cameras were stationed all over the prison at various locations and angles. They did not capture anything significant related to the suicide since the cameras in the Special Housing Unit, where Epstein was located, were not active at the time.
