Subject: Response to 07/10/2025 Director's call

1. CSAM/CVIP: Approximately 15-20 images of commercial CSAM. No CVIP was submitted during the investigation.
2. Highly Responsive Material (85 GB) breakdown: Over one million images and videos were extracted from Epstein's devices. Approximately 34,000 were marked responsive.
 - a. Approximately 15-20 images of CSAM (less than 1%)
 - b. Approximately 90% of the files are adult pornography/adult erotica/age-difficult pornography and erotica
 - c. Approximately 9% of the files are personal or generic internet images
3. How many victims alleged other men or women abused them? Approximately 4-5 victims accused other adult men sexually abused them. There was not enough evidence to federally charge these individuals, so the cases were referred to local law enforcement. Approximately 4-5 victims accused other adult women to have taken part in sexual abuse (threesomes with the minor), including Epstein's girlfriend who was approximately 18-20 years of age at the time. The girlfriend was interviewed/proffered but it was determined there was not enough evidence to charge.
4. Amongst evidence items seized: sex toys, massage tables, framed photos, photo albums, thumb drives, hard drives, computers, tapes, CDs/DVDs, iPads, personal documents, notes, writing tablets/binders, clothing items, logbooks, contact lists, blueprints.
