Hey, [REDACTED]!

Any idea how we can narrow the search for OTD? They can pull the video clip we need, just have to direct them to the actual video file.

Thanks!

Also, if you could please get me the file name or push it to its own folder on DCAP, that would be so helpful!

Thanks

Subject: RE: C19 Video Access for Epstein case

All,

I am working on getting [REDACTED] some software to easily screen capture so that she can record the specified window in the video. This will be the quickest and easiest way to get the video fragment in question. Anything more specialized in pulling out sections of the video would require someone from VFAU and the FAVP program. I have someone in my lab who can assist with this if needed and the screen capture doesn't work.

As for transferring any files, there are a number of easy ways within DCAP to get this done. 1) DCAP is ULMS Enabled so you can access your one drive and save/share any files that way. 2) you can use the DCAP File Share option through Uploader, 3) You can use Teleporter through LEEP, and 4) someone from [REDACTED] lab can copy the media to external media and sneakernet it anywhere it needs to go.

If you would like any guidance on any of those transfer methods, just let me know and I can help you out.

Thanks. [REDACTED] will follow up with another email but he and I will work together to figure out what the options are.

Whats the best way to get it to you? Carve it out and put it on DCAP so you can download it?  
Thanks

We are looking at 08/10/2019 between 0620 - 0640.

The file name I don't have readily available but can work to get it for you.

This will be the MCC camera showing the moments leading up to, during, and after the BOP staff response to the discovery of Jeffrey Epstein in his cell.

Can you send me the file info and the times and I will see what can be done locally for time savings?  
Thanks

Thanks, [REDACTED]!

We are looking at a 2 hour window and then more specifically drilled down to a few minutes of one file.

Great question. [REDACTED]/[REDACTED]...do you guys have access to any screen capture licenses?

[REDACTED]- Is it just pulling files or portions of the files?  
Thanks

Hi everyone,

Hope you're doing well. The DD is asking us to pull video off of this system and put it into a power point presentation.

How would one go about doing that?
