Jorge is prepared to talk to you re:m [REDACTED] and Epstein connection and all the videos and photos he has. He will not disclose where he is holding [REDACTED] nor will he release him into your custody. He will openly disclose what evidence he has and whom some of the participants at these sex parties were. When can I coordinate this call for you?

I decided that my unsecure email was not a good way for us to communicate on this sensitive subject. My friend in the Mexican Federal government, Jorge Gonzales can be contacted through his federal police phone at [REDACTED] that is also his whatsapp address. I have created a whatsapp group so once you have a phone you can use on whatsapp give me the number and I will add you into that group. It will be called EpsMex Please introduce yourself to Jorge via whatsapp or a phone call over a secure phone. I have also included my partner, Maryna who is an ex South African police officer and psychologist to our group. She has lots of evidence she has collected on this same subject matter.. Her mexican cell number is [REDACTED] and that is also her whatsapp.
We all are under threat from US Agents here so we try to be very careful about how we talk and where.

When you talk to Jorge ask him who I was referring to when I said "high powered individual" who has threatened him, me and maryna and who spoke to the President of Mexico last week and told him he would not back off on the threats towards us three.
