As I tried to tell you a month ago, I have continued interviewing the young victim "Karla" and she has finally opened up after her guardian was attacked and beaten by US agents in Chetamul.

She has disclosed where she met Epstein, whose homes they visited in NY, MD, N Mex, FL Virgin islands, Cozumel, plays de carmen and Cancun in just the last 2 years with Marcinko. The names she has associated with him and these visits include Clinton's, Bidens, Wayne, older politicians and lawyers. She has a photographic memory and is an excellent artist who made sketches of some of these men. These US agents who attacked, raped her and her guardian are under arrest in Mexico and have asked her and her guardian to drop all charges against them so that all the harrasing attacks stop. I don't trust these people to not harm her and her guardian due to all the past attacks

If you want to interview her let me know and we can arrange for you to talk.
