█ - just want to extend a big thanks for the work and assistance of your office this week. By all accounts, the partnership between NYO and BS could not have been better, and we really appreciate all your team did leading to today's arrest of Maxwell. I've tried to include everyone on cc, and know - with █ running point alongside our case agents - that everyone pitched in to make the operation a success.

█ - much thanks to your TTAs and SA pilots (also cc'd) as well from NH, NK, and AL. Their valuable expertise is very much appreciated.

Thanks again to all, and hope everyone has a very happy and safe Fourth of July!
