Just talked to [REDACTED]. He has the story, and I think will run with it at 11. I obviously declined comment, but I think he has a source with either the Marshals or the BOP.

I haven't seen any reporting yet. Will keep a look out and let you know if it shows up.

In the interest of trying to beat the media, I thought I'd just include you all on one email.

SDNY advised that Epstein was found unconscious in his cell with red marks on his neck. When staff was able to revive Epstein, he couldn't recall what happened. His cellmate denied knowing anything and said he was just sitting on his bunk with his earphones on. Epstein was removed from the cell and has been medically evaluated. MCC has initiated an investigation per their SOPs. Of note, the cellmate is Nick Tartaglione. Yes....the former police officer and subject of our quadruple homicide in HVRA who has been approved for the death penalty. You can't make this stuff up.

Lastly, per SDNY, the Washington Post has made an inquiry of the incident.
