Subject: [EXTERNAL EMAIL] - Epstein's Buddy Clinton

Date: Mon, 24 Aug 2020 13:51:16 +0000

Importance: Normal

See below where I Ref Clinton the " Guest Of Honour" at times at Epstein's parties that were awash with underage girls.

I am aware that people find integrity a tad problematic within your Parasitic Nation.

However what I am not aware of was there a codicil to that pissant piece of paper that was penned by a bunch of semi literate colonials the US Constitution.

Did that codicil state that crackers such as Clinton can rape women without risk of prosecution.

Did it say crackers like Clinton can engage in sexual acts with girls in their early teens.

Punch will be spinning in his grave at how vacuous and vile the US media has become as would Kay Graham.

The so called Holy Grail of Journalism a Pulitzer who would want one.

I would rather that buffoon in Albany dining out on his Daddies name would give me a " Get Out Of Jail" card in advance.

One that would allow me to punch Pinch out the vile spawn of Punch's loins does not only have my blood upon his hands but the blood of children in 3rd world countries that my late daughters charity would have aided.

Subject: Hepburn/ Asylum in DE/Bundesrat

Sent: 21 Aug 2020 15:44

Dear Sir/ Madam,

I will try members of the Bundesrat in the hope that just one of you has a little moral and ethical integrity within your heart.

I have contacted German Diplomats, alas they all consider themselves much too important to reply to a homeless wretch such as I.

Or they are doffing their caps to the American Dept of Thuggery, The State Department.

Millions were stolen from my late daughters charity by an abomination by the name of Elizabeth Gracen.

Gracen is being protected by Bill Clinton, not mad man time, all you need is Google to confirm the Clinton/ Gracen connection.

I am so very ill, homeless on the streets of Paris, I have been abused and violated by France on and off for 15

years.

All I want to do is go somewhere where I will be treated like a human being so I can try and finish a book I started 23 years ago.

That is all I want, surely being treated like a human being should not be too much to ask, well it is in France.

I am so utterly disgusted with France.

In a just and ethical world Macron would be tied to a tree and flogged.

I have been abused and violated by France for years, even now in these strange times this vile and vulgar man in France Oliver Veran will not even pay me the R.S.A (Welfare) France owes me.

In another time and place Veran would have been a Vichy functionary and would have sent France's Jewry to the Vel d'Hiv with the stroke of his pen.

Please see below.

The text is very angry, however I am so very ill.

I am without doubt screwed up beyond all hope of repair, any wonder why my daughter was in effect murdered by her own mother, I tried to do good in this world with a charity in my late daughters name.

The woman I thought I would grow old with stole millions from my late daughters charity and myself and left me to die upon the streets of Paris.

So yes utterly screwed up, however I could treat no living thing the way France has treated me, even in my darkest hour I could not be that depraved, I could not be so lacking in humanity.

France even took my teeth from me I cannot even chew an apple, difficult to maintain dental hygiene on the streets, most of them have fallen out.

America has infected the planet with vulgarity, ignorance and greed.

The planet is awash with American vulgarity, ignorance and self obsession.

I read in the French kiddy media that the highest paid actor(SIC) is Dwayne " The Rock " Johnson, I wonder what his Hamlet was like, his Barabas and his Boris Trigorin

Truly America has infected the planet with ignorance, there was a wonderful Swedish film called " The Girl With The Dragon Tattoo"

She knew what to do with rapists like Clinton.

Clinton at times was " The Guest Of Honour" at Jeffrey Epstein's parties where Epstein procured under age girls for him.

Seemingly Clinton is allowed to rape without risk of prosecution and engage in sexual activity with underage girls without risk of prosecution.

A parallel all the drivel about Harvey Weinstein, everybody knew he was a scumbag and nobody opened their mouth.

George" Cobweb" Clooney the alleged activist, however in truth a toxic fake never opened his mouth about

Weinstein, maybe his cape was at the cleaners.

Everybody that kept quiet about Weinstein was as guilty as Weinstein, Martin Niemoller explains it better than I in " First They Came"

The same with Clinton, I have spoken with or swapped emails with 13 women he has raped.

If this is ever in the public eye fakes like George " Cobweb" Clooney will be talking crap with " If only we had known"

This world is utterly broken.

Even countries that used to work well no longer do, 30 years ago the NL was a wonderful country, now they do not even care about the sexual abuse of a young boy aged between 6 and 8 by a hotel owner in Noordwijk.

I talked with a British man that was involved with charity, a nice man but a coward, I renamed him Steve Toaster as talking with him is like talking with a toaster.

People in pain need more than " nice inept cowards" like Steve Toaster.

Steve Toaster calls himself a Christian, however he does not deport himself with any of the integrity that Christ allegedly deported himself with in the Gospels.

All my years of the streets I have learned that Christian is in effect a shibboleth for hypocrite.

My late daughters charity was about aiding those in pain not engaging in blah blah blah like Steve Toaster, Gracen stole from that charity monies that should have provided food and meds for children in 3rd world hell holes.

Another summer France has taken from me, they took so many summers from me, so many Birthdays, so many Christmases from me, gone forever.

I would like asylum in your country.

www.moraloutrage.org

+ [REDACTED]

Chris

I am sending on last email to the State AG and his or her's staff.

I am looking for something that I fear is forbidden within your Parasitic Nation, INTEGRITY.

An abomination by the name of Elizabeth Gracen stole millions from my late daughters charity and myself and left me to die upon the streets of Paris.

Gracen is being protected by the ex Cracker in Chief, Bill Clinton.

Not crazy man time, all you need is Google to confirm the Gracen/ Clinton connection.

Gracen first shared a bed with Clinton to obtain a Miss Arkansas Crown.

Bill Clinton is a rapist that comes across like a used car salesman and this is the cracker nobody has the

backbone to stand up to.

I am homeless, living on the streets of Paris albeit not today as a French man was kind to me.

I am in a cheap hotel today and tomorrow and then back on the streets.

I long for death and a release from all the pain and suffering, however there is something I want more and it is all I want in this world and that is that abomination Elizabeth Gracen rotting in jail where it can reflect on the 18 years of pain and suffering it has caused me.

I am so disgusted with peoples lack of integrity, within your Parasitic Nation nobody cares that a woman stole from charity.

Last week in Europe, I emailed the E.U human rights commissioner, the UN human rights commissioner and an Icelandic Judge the head judge on the E.C.H.R.

They would not know human rights if human rights punched them on their nose, they were given the positions as in the metaphoric sense they sucked the right dicks and they get to lurk in ivory towers and engage in intellectual masturbation about human rights.

All I want from your Parasitic Nation is justice and that abomination Elizabeth Gracen in jail.

I cannot even if that dumb f.uck that infests 1600 signed an E.O get back the 18 years of my life back your Parasitic Nation has stolen from me.

I cannot get my late daughter back.

All I want is justice, I ache to get out of France and go somewhere where I will be treated like a human being.

In France this toxic " Nazi" Oliver Veran will not even give me the 4.5 years welfare France owes me, I thought surely in these strange times he will pay France's debt, nothing.

I am so very ill, your Parasitic Nation has made me ill, all that keeps me breathing is my hatred of Elizabeth Gracen and a dream of seeing it go to jail.

I tried to do good in this world with a charity in my late daughter's name, I am aware " Doing Good" in a tad confusing for people within your Parasitic Nation, however children have died in 3rd world hell holes due to Gracen stealing monies that should have provided food and meds for them.

So much ineptitude displayed by those that are meant to aid those in pain.

I see drivel in the French media about the Dalai Lama, I am sure he is a very nice buffoon, however what does he do?, he waves at people.

I could make a Dalai Lama out of chicken wire and servos, animatronics.

I was talking to this nice British guy that I really like that used to work in charity.

However he has a " Norman Rockwell" take on life, I asked him a question about somebody in pain and a cat.

In effect his reply was a cat could make a mess on the floor, the correct reply should have been let's get the person in pain a rabbit and a puppy to go with the cat.

In the UK the most backwards police dept is in Cumbria, they talk utter drivel about victims support, they do not

have a clue, a bunch of yokels in effect the blind leading the blind.

My late daughters charity was about aiding those in pain, those that are hungry and meds for what ails them.

That abomination Elizabeth Gracen stole from those people, all I want is justice and that woman in jail.

I noticed something yesterday in the French media, Naomi Campbell looking good at 50, I am sure "bleeping" her senseless would be great fun.

However I would prefer to share a coffee with somebody with a moral backbone.

This world is broken, there was a woman from ID with millions I poured my heart out to and she would not even give me a sandwich.

I want no part of this world, I just want to nail the door closed and never be seen again and know that abomination Elizabeth Gracen is in jail.

www.moraloutrage.org

+ [REDACTED]

See Below

Chris

I will send one last email to the chimps with crayons masquerading as journalists within your Parasitic Nation.

In my day integrity was the cornerstone of Journalism, I did a lot of freelance work for the V.V that was "murdered" by corp dross from AZ, Mailer will be spinning in his grave at what became of the V.V.

I am sure I am sure I am wasting my time trying to find integrity within the hearts of crayon wielding chimps , however the Republican Guard will not let me punch out that scumbag Macron and it passes the time.

I am living on the streets of Paris as an abomination a small time TV actress Elizabeth Gracen took every penny I had and left me to die on the streets of Paris.

Gracen is being protected by Clinton, most of you know my story, for those that do not, well not crazy man time, just Google the name Elizabeth Gracen it will confirm the Clinton connection.

All I want in this world is justice and that abomination Elizabeth Gracen in jail, why should Gracen get a pass as it is sucking Clinton's pox ridden dick.

Clinton is a rapist that comes across like a used car salesman.

In every walk of life within your Parasitic Nation people fail moral integrity.

You have a mentally ill imbecile that infests 1600 that is trying to choreograph his own Kent State.

If the A.P.A had any integrity rather than making up DX'S for Big Pharma they would be screaming from the rooftops about a mentally ill imbecile in the White House.

If Kay and Ben Bradlee were still alive they would be screaming from the roof tops about a mentally ill imbecile in the White House as would Punch.

I see in the fake left British press a few weeks ago, mindless drivell " 10 Inspirational Quotes from Oprah

Winfrey"

Ye gods the only thing that vile woman has ever said that is worth hearing is "I am leaving now."

Mindless Drivel.

Violence and vulgarity, the American way, the cops murdered a man in MN because they could.

A bunch of scumbags in MN punched out a young transgendered girl as they could.

The American way, ignorance, vulgarity and violence.

I also see President Uncle Tom, Obama engaged in verbal masturbation, the man is not very bright, no James Baldwin.

I am still waiting for an apology from him, only been waiting 11 years.

All I want is justice and that abomination Elizabeth Gracen in jail.

I see in the media that vile and vulgar fake Al Sharpton dining out on the death of George Floyd, utterly disgusting.

However disgusting in the middle name of your Parasitic Nation, in a just and ethical world the descendants of Geronimo would be charging across the White House lawn to scalp that imbecile Trump.

The world is broken I see in the British Media today the Commissioner of the Met Police in London, a vile morally bankrupt woman Cressida Dick saying, the London police have improved in the last 20 years, I doubt the innocent Brazilian electrician she gunned down would agree with that.

I have had dealings with her, she is morally bankrupt.

If she had any integrity she would have resigned due to incompetence that resulted in the death of an innocent man.

I want to nail the door closed, never be seen again and be as shallow as Cobweb Clooney knowing that abomination Elizabeth Gracen is in jail.

See below, I will not meet anybody, however I will attempt to be civil by email and give whoever breaks this an exclusive.

I am so utterly disgusted with peoples lack of integrity, today sending emails for 12 hours to scumbag's.

I despise your Parasitic Nation from my toe nails up and if anybody for one moment wonders why ask yourself this, why did holocaust survivors despise Nazi Germany.

The dynamic is the same your Parasitic Nation choreographed my psychological holocaust and stole 18 years of my life from me, nobody came to my aid and said that is depraved how can I help Chris.

A woman from Idaho with millions would not even give me a sandwich and all these years later not even a sorry Chris.

15 years of sending emails looking for justice, earlier a scumbag called Shea a mindless chimp with NY Books trying to start an email fight.

Critics are pointless at the best of times buffoons that masturbate in ink.

However this goes beyond a buffoon that cannot write playing with crayons.

Such scum make my skin crawl, all I want is justice and that abomination Elizabeth Gracen in jail.

I am a man of peace, however if Shea was here I would take him apart, what kind of sick scum tries to start an email fight with a homeless man that has nothing.

18 years of my life stolen from me by your Parasitic Nation, gone forever.

Today I would love to punch Clinton out, I would love to get on a Ducati Monster and head to Venice and check into my favorite hotel and sleep for a month.

However I would settle for a sorry Chris from some crayon wielding chimp that masquerades as a journalist.

I would not accept that sorry, however at least you would be trying to atone for your depravity.

I am in a cheap hotel as a French man was kind to me.

I am ill, I long for death and a release from all the pain and suffering and that is that abomination Elizabeth Gracen in jail.

I despise your Parasitic Nation from my toe nails up my hatred is akin to the hatred that lived in the hearts of holocaust survivors towards Nazi Germany.

Your Parasitic Nation choreographed my psychological holocaust and for what so Clinton could have his putrid pox ridden dick sucked by a 2 bit actress from Arkansas.

This world has become so dumb, France was once a cultured nation, I see drivel in the French media, Megan Merkel pays homage to the man the cops killed.

What relevance does it have what a 2 bit actress that married Prince Parasite have.

Also in the French media drivel about a new book by the Harry Potter woman now in French, she is no writer, she is hardly Marguerite Duras.

This world has become so dumb, your Parasitic Nation has infected the planet with ignorance.

In every walk of life within your Parasitic Nation all one finds is ignorance and moral bankruptcy.

I see this morning a robber baron scumbag at Apple talking about racism, as a company Apple are the scum of the earth, ripping off the mindless with overpriced crap.

Apple a company that got rich screwing people over is akin to Hitler saying Birkot Hashachar.

500 Euro for a 70 euro 500 GB ssd, screwing over chinese children in their sweat shops.

If Apple had any integrity they could manufacture their product in the US, if Apple had any integrity they would not be charging 500 for a 70 euro SSD.

The robber barron at Apple is so hypocritical he would make a " Good Catholic" racism in the US is wrong but screwing over Chinese children to make overpriced schlock is okay.

Windoze is awful but Linux Mint is free, every walk of life your parasitic nation fails moral integrity and is a

cancer upon Mother Earth.

I want to nail the door closed never be seen again and know that scum Elizabeth Gracen is rotting in jail where it can reflect on the 18 years of pain and suffering it has caused me.

Shame on you, you are without honour and integrity.

I am an idiot, 2 gold diggers and being drawn to that vile woman Moore, however I am not depraved like you are.

All I want from your Parasitic Nation is justice and Gracen in jail.

Chris

Subject: HLS/Hepburn/ INTERGITY
Sent: 3 Jun 2020 12:51

I will send a copy of this to a handful of law schools in the US, it went to " The Usual Parasites" in entertainment law.

Children have died due to an abomination stealing from my late daughters charity and nobody cares, American vulgarity and ignorance at its finest.

Well it went to a slew of law schools and one constant moral bankruptcy, a constant in your parasitic nation.

I will finish sending a copy to HLS however I am sure you are busy watching buffoon number 1, Dershowitz and buffoon number 2 Tribe play with each others dick's.

What Joy

America, a cancer upon Mother Earth.

I doubt I will find any integrity within American law schools, shades of Pink Floyd's " Another Brick In The Wall"

You pump out good little chimps, an American law school could not sire somebody of the ilk of Ludovic Trarieux.

Your so called top school HLS a kindergarten by European standards, that buffoon Dershowitz prancing around as the self professed arbiter of all things like a cross between John Jay and Big Bird.

However will anybody do the right thing and stand up for what is right, just and noble.

I am aware integrity is forbidden within your parasitic nation, however so was looking after Anne Frank, however the good and just did the right thing.

Your parasitic nation is awash with hypocrisy and vulgarity.

I see at the moment that imbecile that infests the White House is busy trying to choreograph his very own Kent State and nobody is doing anything.

If the national guard had any integrity they would refuse any order from Trump.

As Shawcross said " There comes a time when man must refuse to answer his leader if he is also to answer his conscience"

Lost on most people in your parasitic nation, most L.E officials in the US would round up 6 million Jews and gas then if the President said to do it.

Almost a constant L.E in your parasitic nation lack integrity and empathy, I have an encyclopedic knowledge of their ignorance.

In all of my years sending emails looking for outrage at a woman stealing from my late daughters charity only come across 1 cop and 1 fed that is outraged.
If anybody can embrace forbidden words like morality and integrity I look forward to hearing from you.

All I want in this world is justice and that abomination Elizabeth Gracen in jail.

I cannot get back the 18 years your parasitic nation has stolen from me.

In closing something else I noticed a few days ago that speaks to the systemic hypocrisy and ignorance within your parasitic nation.

President Uncle Tom, Obama was no towering intellect, he says the death in MN should not happen in America today, however it was okay for President Uncle Tom to murder people with drones.

I noticed something today where your vile and vulgar nation takes vulgarity to another level, a vile and vulgar company Nike that abuse children in 3rd world sweat shops.

Well they are attempting to get free advertising with " Don't Do It" in my days at the V.V people would have been all over Nike and that scumbag Phil Knight.

Free advertising on the back on a man that was murdered by cops in MN is utterly depraved.

God Bless America, a cancer upon the planet, pass the cool aid.

I expect I would have more chance trying to convince Hitler to build a mikvah than I have finding integrity in an American Law School.

I hope I am wrong.

www.moraloutrage.org

See below.

Chris Hepburn

I will email so called important Entertainment Attorneys according to that semi literate drunk, Janice Min that plays with crayons for that masturbatory drivel The Hollywood Reporter

I do not expect you to do the right thing as it is the right thing, I am not going to find a latter day Denning in

entertainment law.

In effect your hearts are cut from the same cloth as Larry H Parker, he chases ambulances you throw paper at corp dross on behalf of other corp dross.

Hardly an ethical metier, I will not attempt to appeal to your sense of righteousness as you do not have any.

I will appeal to your greed, I know what joy.

Work with me and throw paper at Mr Celluloid Vomit, Jerry Bruckheimer and punitives will be phone numbers.

Take 50 percent.

Bruckheimer knew 75 percent of my property belonged to my late daughters charity when he bought it from that abomination Elizabeth Gracen.

Bruckheimer did not just "steal" from me he stole from children in 3rd world hell holes that my late daughters charity would have aided.

I have no hidden agenda, all I want in this world is justice and that abomination Elizabeth Gracen in jail where it can reflect on all the years of pain and suffering it has caused me.

I am ill, I am an old man and I am living on the streets of Paris, although I am in a cheap hotel for a few days as a French man was kind to me.

I know "kindness" is forbidden in The Cesspool By The Sea, there was a woman that now lives in Idaho with millions once in the public eye but has been thrown on the scrap heap due to her age.

She would not even give me a sandwich as I cried myself to sleep under bridges in Paris.

That is the Cesspool By The Sea for you.

Work with me and throw paper at Bruckheimer and you will make millions.

See below and ramble free website at www.moraloutrage.org

Chris

I will send one last Email to assorted industry dross in the Cesspool By The Sea.

I do not expect you to have a moral epiphany and do the right thing as it is the right thing.

You have had 18 years to do the right thing and nobody did.

However work with me and we can blow Bruckheimer out of the water.

More little green pieces of paper emblazoned with dead scumbag's for you.

What Joy, the limit of your tiny vulgar self obsessed toxic heart.

As I said I do not expect you to do the right thing as it is the right thing, however I will talk about a few things so you can see into the heart of the man you have been party to abusing and violating.

You may say you did nothing.

2 answers to that, an allegory , I was bleeding after being hit by a car, you did not hit me with a car.

Mr Celluloid Vomit, Jerry Bruckheimer hit me with a car, you drove past me and kept going rather than taking me to Ceders

That is the simple allegory that you will understand.

A tad more abstract, look up " First They Came" by Martin Niemoller.

Bruckheimer knew that 75 percent of my property belonged to my late daughters charity when he bought it from that abomination Elizabeth Gracen.

I am so very ill, I ache to get out of France, I am a man of peace, however I ache from my toe nails up to kick the crap out of the President of France.

Does that make me a lunatic?, well maybe just maybe a little old lady let's call her Mrs Goldstein, let's say she survived the Vel d' Hiv roundup, maybe she would ache to kick the crap out of Pierre Laval.

France has abused and violated me on and off since October 2005.

There is a wacko in Norway that murdered over 70 people, Norway treats him better than how France treats me.

Even now in these strange times France does not try and make things right with me, France continues to abuse and violate me.

I ache to get out of France, I do not want to be Elvis, I do not want to go to the moon, I do not want to be the box ticking idiot on the 38 th floor.

I just want to go somewhere where I will be treated like a human being rather than being abused and violated day after day the way France has abused and violated me for so long.

Even now in these strange times France will not even pay me the 4 years and 5 months of welfare I am owed, that is not even touching on punitive damages.

There is a new scumbag a man called Oliver Veran in charge of the welfare department, if the low life had any integrity he would have paid me what I am owed the day he started his new job.

NOTHING.

I even emailed him, NOTHING.

Veran is the scum of the earth, an amoral man, France has learned nothing, first Dreyfus, then Vichy and now Hepburn.

I ache to get out of France, France lost her intellectual spark many years ago.

Even a vulgar carpet bagger Mayor in Paris, an alleged socialist that I expect Jean Jaures would want to puke on.

Alcalde Puta, Hidalgo is scum incarnate, at a personal level I am disgusted with her, I could have died due to her depravity.

I was living on the streets, Roma scum tried to mug me, I chased them away, I could not have done that if they had dropped a rock on my head as I slept.

Young Roma kids that are vile.

I would not have been on the streets if Hidalgo had paid Paris's debt to me.

The woman is a toxic fake, an alleged socialist that takes private jets as homeless children cry themselves to sleep on the streets of Paris.

I tried to do good in this world with a charity in my late daughters name.

Can you get your toxic heart around that, my daughter was murdered by her own Mother.

I wanted her name to live on in deeds and actions.

Now all I want in this world is justice and that abomination Elizabeth Gracen growing old and dying in a jail cell.

I am so disgusted with peoples lack of integrity, 18 years and nobody said it is disgusting what has been done to you Chris, how can I help.

Why should Gracen get a pass as it is sucking Clinton's putrid pox ridden dick.

In a just world Clinton would be tied to a pole in Sally's 2 and the transgendered with a cracker fetish can practise on him.

He is a rapist, 13 women I have talked with or swapped emails with , logic suggests there will be more.

If this is ever in the public domain the vile and the vulgar will be doing their fake hand wringing like they did re Weinstein.

Every body knew Weinstein was a sleaze, nobody did anything.

Where was that toxic fake Cobweb Clooney the " Activist" was his cape at the cleaners.

That speaks volumes to the lack of integrity in the cesspool by the sea.

Nobody calls Clooney out along the lines of go to hell you toxic fake.

Frankly I ache to be as shallow as Cobweb Clooney, it must be bliss depth and compassion got me nowhere, maybe being a male valley girl like Cobweb Clooney will.

This world is truly broken, I am ill, I will never know love, I will never hear a child say dad, Gracen killed that man.

I would not piss on Dick Wolf if he was on fire and I did not watch it.

However I read somewhere he did an ep on Law and Order where a Weinstein type was charged with rape.

He did not have the balls to call the character Weinstein.

I went back to my own country, 2 nd to last time I came across this vulgar corrupt woman Georgia Gould the leader of Camden Council.

Utter scum that took money so they would not house me.

The last time I went back I went to this vulgar town Barrow- in - Furness, they are vile, the town is the asshole of the UK, I could treat no living thing the way they treated me.

They are so ignorant an American writer makes a valid assessment of that town and they are all on the defensive, they are utterly vile.

Bill Bryson the American writer in question is a little too " Norman Rockwell" for my taste, he calls Barrow and her people revolting, frankly that is being kind, they are the most toxic vulgar people you will find in the UK.

You will not find people as vulgar and ignorant as people in Barrow in Furness this side of AL, however I treated the yokels the right way and they crapped on me.

I think of that sack of scumbag Moore, I poured my heart out to her via Email and she would not even give me a sandwich.

The woman is toxic.

All I want is justice and that abomination Elizabeth Gracen in jail.

I will never act again unless I can do Lear with Sir John or an English teacher in the Russian institute, skin by a French Company or a documentary about building a guillotine for Macron.

All I want in this world is justice and that abomination Elizabeth Gracen in jail.

This world is truly broken in your country you have an imbecile in the White House, in my country we have a scumbag in number 10.

The world is broken all I want is justice and that abomination Elizabeth Gracen in jail.

I have ran out of people to email a handful of politicians in Europe, however pointless in they had any goodness within they would have emailed me and said you are welcome Chris, can you make it to our Embassy or should we send a car?.

All that keeps me breathing is my hatred of Elizabeth Gracen and a dream of seeing it go to jail.

I am ill, homeless, I cannot even go to a bar and get laid, even if I could something very sad and tawdry about trawling the bars to get laid at 55.

I want to get on a Ducati Monster and out of France and scrub the stench of their depravity from my heart and soul.

The world is broken, even countries that used to work no longer work, 30 years ago the NL was a great country.

Now they do not even care about a hotel owner from Noordwijk sexually abusing a boy aged between 6 and 8.

I emailed everybody there apart from William of Orange's Cat nobody cares.

I met a nice British guy that was involved with charity before he retired, I like him a nice guy, however somebody else that does not want to know upon hearing the name Clinton.

I emailed that scumbag Moore again a few weeks ago and said feel some guilt and shame and help.

She owes me nothing, however I am sure that somewhere in her dark toxic heart she knows I would not have

failed her.

Nothing I gave up checking the bank account number she has.

If anybody wants to do the right thing and help me my bank info is on my new website www.moraloutrage.org.

To over simplify I want to go somewhere where I will be treated as a human being and not abused and violated the way France has abused and violated me for so long.

Anybody works with me we can blow Bruckheimer out of the water.

Back in the day Gil Garcetti liked the cameras a little too much, however he had more depth than that buffoon Aunt Jemima, Jackie Lacey.

I failed my J.D, I passed the NY bar exam a couple times on behalf of other people.

Right and Wrong is a component of law that lives in the hearts of the good and just.

My toe nails know more about the moral component of law than that disgusting woman Lacey that practises selective prosecution.

I want to get out of France and spiritually decompress in my favourite hotel in Venice.

Shame on you people, if anybody wants to do the right thing I need help.

Who said it is disgusting, how can I help?, NOBODY.

Integrity there is a word for you, granted forbidden in the Cesspool By The Sea, however the last honest man there Brando knew what the word meant.

I knew him, a man of honour and integrity.

He would have been screaming from the rooftops about a woman stealing from charity.

In effect Mr Celluloid Vomit Jerry Bruckheimer has taken food and meds out of the mouths of children in 3rd world hell holes, he knew 75 percent of my property belonged to my late daughters charity when he bought it from Gracen.

If you care to do the right thing I look forward to hearing from you.

If not I am sure Bruckheimer will be along shortly to stick his putrid pox ridden dick in your mouth.

After that maybe you could ask Cobweb Clooney for some advice on a crappy overpriced coffee machine that appeals to terminally confused 30 something Vanity Fair readers.

I just want to get out of France and scrub the stench of their perversity and depravity from my heart and soul and sleep for a month in my favourite hotel in Venice, Italy not 90291.

Integrity is today's word, no doubt a tad abstract.

I am homeless, I will never be whole again, all I want is justice and that abomination Elizabeth Gracen rotting in jail where it can reflect on all the pain and suffering it has caused me.

I accept I am an idiot, 2 gold diggers and being drawn to this vile and vulgar woman from Idaho.

However I am not depraved, anybody that can turn their back on another human being in pain is depraved, no excuses are acceptable.

Chris
