Subject: [EXTERNAL EMAIL] - Fw: albert deputation (transcript)

Date: Tue, 31 Jan 2023 01:31:23 +0000

Importance: Normal

FBI wake up and get to work why are all my forewarning's being squandered? also free energy

Do something about this

1. correct predictions of next events including terrorism
2. zero-point energy is working (UAP incident/ reproducible contact)

Budget Subcommittee at City Hall 9:30 AM - January 17, 2023

Toronto City Council

ORIGINAL: <https://youtu.be/JQ017hz7mxo>

Good Morning!

There should be a law that the board must resolve deputations within 48 hours this is a matter that the city should intervene on and find a resolution too. The first matter is reproducible contact as i understand ryerson, reporters and toronto police have a confession out of the abductee who had her own flying car that runs on zero-point energy and they refuse to share this valuable information with the rest of the world. that is a crime against humanity free energy can eliminate human suffering and solve global crisis problems. What is the city going to do about confirming that UAP contact happened at ryerson?

The second matter is precognition of events since 1990 onwards i have been giving toronto police name/date/place of the next terrorist events they always squander the good information and never know what to do. Again this is a crime against humanity. Who do i report new threats too? Don't say toronto police they are incompetent and negligent and will just leave everyone to die in vain. They then hide behind a blue wall of silence cover-up. It is fairly easy to prove my claims "The Review" into Mcarthur the Epstein report has an audio recording of the "Coronavirus" set of predictions which also includes UkraineJet752 and Koby Bryant make this audio tape public. Why was nothing prevented? "The Review" has some explaining to do.

The City can convene Ryerson into public hearings on the forewarnings and the UAP contact. They will be in shock to learn that direct warnings of incel/danforth/mcarthur went out in 2013 including victims names. TPS squandered everything they now scramble about to hide their negligence. TPS board is either unwilling or unable to do anything about this they are content to squander new forewarnings again. Quite a few reporters were crossed by "The Review" they were honest and gave the same account as mine, make these audio tapes public. It is the property of civilians who paid for it. Why is it being suppressed from them?

Many of the predictions were in open lecture at ryerson this adds another 200 honest witnesses to my claims. In fact at least 5 jane do's had an anomalous human experience super human strength, psychic ability, reproducible contact. The first step is to get a public confession about these events. Then place zero-point energy into the public domain take new forewarnings and prevent the next terrorist attacks thereby saving innocent lives. What is the city doing about it?

i call upon the city to find a constructive resolution to this matter within the next 48 hours.
