TRANSITORY RECORD

Good afternoon to all-

Please find attached updated litigation information. I corrected the information that was inadvertently switched in "stayed" section of the last status update creating some confusion. In sum, stays have been granted on 8 litigations. 3 additional Motions to Stay are still pending. The NDCA denied a Motion to Stay in one of the litigations as premature while the NDIL issued a standing order staying all civil cases in which the US Attorney's Office has appeared as counsel of record. I'll continue monitoring and keeping everyone informed.

TRANSITORY RECORD

Hello to all,

As [REDACTED] stated in the below email, I'll be sending an updated list every day by 1:00 p.m. containing updated information about cases with upcoming litigation releases deadlines. Looks like AUSAs were instructed to seek stays in most cases, but the situation is very fluid at this time. We will monitor PACER to ensure timely dissemination of the most updated information that will assist in making determinations on employees status (excepted or non-excepted). Please find attached a list containing the latest update. Do not hesitate to reach out to me if you have any questions or concerns. Thanks to all for your patient and dedication.

TRANSITORY RECORD

All—We're synching a daily info flow to update which Litigation cases have been stayed or are pending stays. Each morning LSU/FO will confer and LSU will send out an updated list. As background, the last time we had an extended shutdown—most, but not all Courts, granted stays.

Case stayed. Case has been stayed by the Court and any personnel supporting that case will revert to non-expected status (unless supporting other open lit cases).

Stay Pending. A stay is being filed by the pertinent USAO, but has not yet been granted by the Court. If all work on the next release is finished, the supporting FOIPA Unit GIS will provide the release package to LSU and then revert to non-expected status (unless supporting other open lit cases).

Reach out to me if there are questions.
