Morning ██████,

My apologies I entered your name incorrectly for Argos access. My co-worker re-added your name correctly so as soon as activity starts up, you should start seeing things in Argos.

If you want to run historical reports, please go to 683tech.com and click on the TIF icon. Clicking on that icon will trigger an email to my squad asking to give you permission to TIF. Once we grant you permission, you'll receive a confirmation email and then you can go in and start running historical pen reports.

Regards,

███████████

I don't see the new number ███████████ on Argos, just the ███████████. Can the ██ number be loaded in Argos?

Thanks,

Hey ███████,

I provided you access to daily email reports (which you'll receive on the red side) and Argos (both red and green side access). For green side, please go to 683tech.com and login like you would via UNET (login name and password plus RSA token). Click on the Argos icon and you can view the PR/TT data in real time.

Regards,

███████████

████████,

We started receiving PRTT data for your target around 10:02 am this morning. I've copied your tech squad above. Not sure how you plan on reviewing the data (ie, 683Tech/Argos, Daily Reports, Meta, etc), but they can assist with any questions you might have. Thanks,

████████

████████,

I'm sending this to the Telecommunications Intercept & Collections Technology Unit (TICTU)

They handle what we call "traditional" cell phone pen register and cell phone messaging.

TICTU can you assist ████████ re: the status of the PR/TT and SMS collection for (█████████████ ?

Thanks,

███

TRANSITORY RECORD

I'd like to find out the status of this order? Is there someone I can talk to who could help answer some questions on timing and when we will be up on this phone?

Thanks,

This is an "Information Only" email notification from the Data Intercept Technology Unit (DITU) of OTD, to inform you of the receipt and entry of the order listed below into the OTD Management System (OMS).

Authority:	CRIM
Case Number:	50D-NY-3027571
Docket Number:	20-CRIM-17556736
Signed Date:	06/19/2020 04:00:00 AM UTC
Expiration Date:	08/18/2020 04:00:00 AM UTC

Target Name	TSN	Provider Name	Technique(s)	Data Route(s)
██████	T-0001675868	AT&T Mobility	PRTT	Data not collected by or routed through DITU.

Please be aware that additional actions are necessary before data will be available in DWS or Insight, to include service of the order to the communications service provider. You may receive additional notifications if DITU tasks the order to the provider and it is rejected for some reason or if the provider reports that the account does not exist.

If you have questions, please contact ██████████ .

Thank you,

██████████
