

██████████. Present for the interview was AUSA ██████████ AUSA ██████████, AUSA ██████████, Detective ██████████, and Special Agent ██████████.

██████████ was born in Stockholm, Sweden and grew up with five siblings, a half-siblings ██████████ ██████████. ██████████ has two older half-brothers who live in Sweden. In approximately 1984, ██████████, his parents, and siblings moved to Los Angeles for a year, then moved back to Sweden for ██████████ first grade year. In approximately 1988, ██████████ attended second grade at the PALM BEACH SCHOOL OF THE ARTS in Palm Beach, Florida. In ██████████ senior year, the school's name changed to DREYFUSS SCHOOL OF THE ARTS. ██████████ graduated high school in 1998. ██████████ and ██████████ also attended. ██████████ lived in Florida for approximately eleven years before moving to New York for college, where he attended three semesters at the Manhattan School of Music. He attended college from approximately October 1998 to 2000. In approximately 2000, ██████████ moved to Los Angeles and has lived there for approximately 20 years, where he has pursued acting, music, voice over acting, photography, real estate, and notary.

██████████, ██████████, and ██████████ all attended INTERLOCHEN in approximately 1994, 1995, and 1996. In 1997, ██████████ and ██████████ attended TANGLEWOOD BOSTON INSTITUTE, but ██████████ was not sure if ██████████ also attended. Their father died in 1993, and in the summer of 1994 at INTERLOCHEN was when ██████████ first started talking about a man (JEFFREY EPSTEIN) for who she had a sense of admiration. EPSTEIN focused on their father, saying he knew their dad and admired him. EPSTEIN approached ██████████ at the picnic tables. ██████████ told ██████████ the day of or shortly after she met EPSTEIN. ██████████ would have been 14 years old when she met EPSTEIN. ██████████ did not recall if ██████████ referred to him as "JEFFREY" or "JEFFREY EPSTEIN". It became clear that EPSTEIN lived in Palm Beach, which was a "cool coincidence". ██████████ did not recall the first time he met EPSTEIN. The first memory ██████████ had of meeting EPSTEIN was in Okie Square/Okie Boulevard at a movie theater. ██████████ met EPSTEIN and ██████████ and GHISLAINE MAXWELL were also present. ██████████ assumed that MAXWELL was EPSTEIN's girlfriend/partner. ██████████ did not remember if that was the first time, he met EPSTEIN, but did recall that it was the first time that he met MAXWELL. When ██████████ met MAXWELL, he was approximately 16 years old, while ██████████ was 15 years old. ██████████ did not recall meeting EPSTEIN while at INTERLOCHEN, so assumed it was in Palm Beach the first time he met him. ██████████ assumed he just started hanging out with ██████████ or she was going to his house.

██████████ told ██████████ that MAXWELL had told her, "Oh I would teach your brother a thing or two".

EPSTEIN was a "godfather figure" and wanted to help ██████████. EPSTEIN wanted to do a lot of nice things because he admired their father. ██████████ heard this from ██████████ and their mother. ██████████ reported that it never felt weird, but now looking back it does. ██████████ recalled that ██████████ was going to EPSTEIN's home days/weeks/months after first meeting EPSTEIN. ██████████ felt that it was pretty soon after camp. ██████████ felt that ██████████ had gone over in the day time. ██████████ did not think ██████████ had stayed the night at EPSTEIN's home, but she could have. EPSTEIN sent a driver, who ██████████ described as a very nice Latin man. ██████████ only remembered EPSTEIN's driver because he was very friendly. They talked about Latin music together. ██████████ could not recall his name.

When ██████████ and his family had moved to another house in approximately 1995/1996, he recalled answering the phone and EPSTEIN was on the other line. ██████████ mother always told them to be polite. EPSTEIN was always curt and to the point saying something like, "Can I speak to ██████████ please?". ██████████

spoke to EPSTEIN on the phone a handful of times and it was always the same. ■ did not remember if he talked with MAXWELL on the phone.

When ■ met EPSTEIN in person, EPSTEIN seemed weird; EPSTEIN was in sweatpants and seemed like a homeless person. ■ had told ■ at some point that she remembered EPSTEIN having dinner at their home; ■ did not remember this but thought it would have made sense because their mother had people over all the time.

■ went to New York City in approximately 1997/1998 for her senior year of high school. Before she left for her senior year, ■ told ■ about EPSTEIN's house. ■ would have been a junior when she told him this. ■ did not know who made travel arrangements for ■; he did not know if they were commercial or private. ■ recalled that ■ was in a pageant in approximately 1996/1997 in which EPSTEIN helped her. ■ has spoken to his sisters over the years about it. ■ recalled one of his sisters said she went with ■ to buy a dress for the pageant. EPSTEIN's New York City house had seven stories; ■ talked about the house. ■ felt that MAXWELL always traveled with ■ and EPSTEIN. ■ mentioned MAXWELL a lot. ■ would go to events and places with EPSTEIN and MAXWELL; ■ talked with ■ about it. ■ remembered that ■ had told him that she met DONALD TRUMP at MAR-A-LAGO in approximately 1995/1996. ■ told ■ about this meeting at the time it happened. ■ felt that he met EPSTEIN and MAXWELL a couple times. ■ remembered approximately 10 years ago seeing EPSTEIN's face in the media. ■ recognized him so he believed that he had met EPSTEIN more than once.

In approximately 1997/1998, ■ mother told him to write music for EPSTEIN's birthday. ■ spent six hours writing music, titled "Fanfare for Jeffrey".

EPSTEIN purchased ■ and his family a computer that was delivered to their home by his driver. ■ thought this happened shortly after INTERLOCHEN. ■ thought it was used before EPSTEIN gave it to them. This is the only thing ■ remembered receiving from EPSTEIN. ■ seemed to think that there was no doubt that ■ received gifts from EPSTEIN; ■ thought this made sense that EPSTEIN would do this. ■ had no specific memory of ■ receiving a gift. ■ told ■ that she had been to EPSTEIN's New Mexico ranch.

■ has had conversations with ■ over the years where ■ told him that EPSTEIN gave ■ large amounts of cash.

When ■ was auditioning for colleges in New York City, he stayed in an apartment in Manhattan owned by EPSTEIN for a couple of days. ■ did not know how he was able to stay at EPSTEIN's apartment. There was a friendly door man, who ■ thought may have given him a key; ■ thought he told the doorman may have told him that he was friends with EPSTEIN. While in the apartment, a girl walked in and introduced herself as ■. ■ did not know ■ was staying there. ■ was 19 years old when he met ■ who was 23 years old. When ■ walked in, she told him that she worked for EPSTEIN.

■ had not seen ■ in over a decade when she reached out. ■ saw her in London in November 2019. ■ told ■ that they needed to talk about EPSTEIN. ■ told ■ that she was surprised it took him so long to ask about him. ■ asked ■ if she knew, and ■ told him no. ■ told ■ that this situation has ruined her life and that ■ had written a book with

█████ in it. █████ believed █████ when she said that she did not know the extent of what EPSTEIN was doing. █████ was paid to work for EPSTEIN; she was basically a slave. █████ met BILL CLINTON with MAXWELL present. CLINTON asked █████, "What do you do?". MAXWELL told CLINTON that █████ was her slave. █████ told █████ that she knew nothing about what has been reported about EPSTEIN. █████ had wanted to talk to █████ because he knew she had worked for EPSTEIN and figured that █████ had to have known something. Throughout █████ friendship over the years with █████, they never talked about EPSTEIN and MAXWELL. █████ told █████ that she was MAXWELL's assistant and described herself as MAXWELL's slave.

█████ did not exchange emails with EPSTEIN, nor has he been to any of EPSTEIN's other properties. █████ told █████ recently that she had been to EPSTEIN's Palm Beach house. █████ felt that his mother had been to EPSTEIN's Palm Beach house but was not sure.

█████ went to JULLIARD.

When █████ saw the news reports, he thought that there was no way something had not happened to █████. █████ told him that she had taken █████ out for lunch and told █████ that she knew something had happened to her, telling her that she knew she was raped. At first, █████ denied it to █████ then broke down.

Approximately 10 years ago when the investigation of EPSTEIN first came in the news, █████ mentioned subtly what happened to her. █████ never overtly told █████ and █████ never asked. There was a lot that was implied. █████ thought that he had asked her if she was ok, and █████ replied, "How do you think I feel; I was raped by a pedophile for years". █████ has opened up more in recent years.

When █████ and his mother lived in Sherman Oaks in California, the DAILY MAIL showed up at their home. █████ heard the conversation between the reporter and his mother; his mother was trying to protect █████, saying that nothing happened with █████. █████ mother was also trying to protect herself.

In the early 2000's, when █████ lived with █████ in Sherman Oaks, a massage therapist came to give him a massage. This masseuse worked for EPSTEIN. EPSTEIN was still very much in █████ life at this time.

█████ did not remember if he had talked with █████ in person or over the phone when it all came out. █████ did text █████ when EPSTEIN died, telling her that now EPSTEIN was out of her life. █████ then realized that was not true, that things were just beginning.

█████ is very resentful towards their mother. █████ did not know how their mother could not have known because she came home with so much cash. Their mother said that she had asked █████ and █████ always said nothing happened.

When █████ and his family lived in New York City at █████, █████ told him that EPSTEIN co-signed for their lease. Their mother said that this was not true; her boyfriend did. When the sublet the apartment, the person did not pay the rent and EPSTEIN contacted █████ and told her that she needed to take care of it.

█████ said that EPSTEIN paid for INTERLOCHEN. Their mother said her boyfriend paid.

Early on, ██████ had respect for EPSTEIN; she loved how smart he was. EPSTEIN said things like, "An ozone repairs itself before a man could ruin". ██████ did not know what the turning point was for ██████. ██████ would say that it was the lunch she had with ██████ that was her turning point.

The news outlets were blackmailing ██████ saying that she needed to give an interview or they would write whatever they wanted. ██████ thought that she may have paid an attorney to make the media go away.

██████ expressed that she did not want this to ruin her life. ██████ told ██████ that he would support her in whatever she decided. This conversation happened approximately six months prior to this interview.

The second or third year at INTERLOCHEN, ██████ and his brother, friends, and mom stayed at EPSTEIN's cabin at INTERLOCHEN. EPSTEIN was not there when they stayed. EPSTEIN communicated to ██████ that they could stay there.

██████ recalled seeing a meme on Youtube that had ██████ photo on it but saying that a woman named ██████ was raped.
