Waiver Explanation

This request is NOT for any commercial use. This request is being made specifically because of the compelling public interest in the FBI's operations as they relate to convicted and prolific sex offenders like Jeffrey Epstein. Furthermore, open source reporting shows that Epstein had close ties with former president Bill Clinton, current president Donald Trump, Prince Andrew, and other politicians and heads-of-state. For that additional reason, the public interest here outweighs any on-going right to privacy that may be in play.

"Documents shall be furnished without any charge or at reduced rate . . . If disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester."

All 4 of the factors are met in this case. 1) The request is clearly related to the operations of the federal government in general and the FBI in particular. 2) The request is likely to contribute to the public's understanding of the FBI's handling of Epstein. 3) The request is likely to contribute to the public's understanding (I intend to publish all records received), and 4) Considering Epstein's reported ties to former and current presidents and royals, any information you can provide would absolutely be significant.
