SPECIAL NOTICE FOR MARGIN CUSTOMERS

If you are a customer with a margin account, you consent to Bear Stearns's right to use, lend or pledge any securities held by Bear Stearns in your margin account. In certain circumstances, such loans or other use may limit, in whole or in part, your ability to receive dividends directly from the issuing company and/or your right to exercise voting and other attendant rights of ownership with respect to the loaned, sold or pledged securities. Such circumstances include, but are not limited to, loans of securities that you own in your margin account that continue over record dates for voting purposes and ex-dividend dates for dividend distributions. If you do not receive dividends directly from the issuing company, you may receive payments-in-lieu of dividends which could cause you to lose the benefit of the preferential tax treatment accorded to dividends.

You are advised to promptly report any inaccuracy or discrepancy in your account to your broker and Bear, Stearns Securities Corp, ("BSSC") at the telephone numbers listed on the front of this statement. In order to protect your rights, including any rights under the Securities Investor Protection Act ("SIPA"), any such communications should be reconfirmed in writing to your broker and BSSC at the addresses which appear on the front of this statement,

In an effort to maximize execution quality, Bear Stearns may route your equity orders to its Smart Order Router (SOR). The SOR accepts limit and market orders and automates their routing across several sources of liquidity in an attempt to maximize price and minimize market impact with respect to your order. The SOR routes orders using proprietary algorithms that scan exchanges, ECN's and other liquidity venues before it decides a strategy designed to achieve an optimal execution for clients. The SOR **may** in the course of executing an instruction change the entered order type from market to limit or may change the entered limit price in an attempt to obtain the best price. Although the Firm believes that the regular use of this technology benefits clients by achieving overall better execution quality, we cannot guarantee an optimal execution on any individual order.
