This statement is provided to explain Bear, Stearns & Co, Inc.'s ("BSC") payment for order flow practices.

BSC routes a majority of orders for customer securities transactions to the primary market for such securities. Orders may also be routed to other market service vendors that assure executions pursuant to complex mathematical formulas at better than the national best bid or best offer (NBBO). BSC receives no cash payment or other consideration for such order routing other than favorable executions or executions of limit orders at no additional charge.

Beginning October 31, 2001, you may request the identity of the venue to which any of your orders were routed for execution (if the order was within the six months prior to the request or July 2, 2001, whichever is a later date), whether the order was directed by you to that venue, and the time of the executions, if any, that resulted from such orders.

Securities and other assets in your account are the firm's collateral for any margin loan made to you. If the securities and other assets in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, the firm can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held with the member, in order to maintain the required equity in the account. It is important that you fully understand the risks involved in trading securities on margin. These risks include the following:

- You can lose more funds than you deposited in the margin account.
- The firm can force the sale of securities or other assets in your account(s).
- The firm can sell your securities or other assets without contacting you.
- You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call.
- The firm can increase its "house" maintenance requirements at any time and is not required to provide you advance written notice.
- You are not entitled to an extension of time on a margin call.
