---

█ and █,

Attached please find my draft motion to stay discovery. In the factual background section, I review many of the requests, in an attempt to demonstrate how petitioners are overreaching into irrelevant areas. I don't believe the stay motion needs to be filed under seal, unless expressing the view that a case still exists, in which petitioners can consult with the attorney for the government, is not a matter to be disclosed in a public filing.

I reviewed your motion to dismiss and it is excellent. I have no suggestions or revisions.
