I have DL photos from two girls in California that would have been underage 2001-2002 (As to whether they were involved with Epstein in 01-02 since the book is from 04-05, I don't know)

One of them, [REDACTED] lives a pretty interesting life according to internet blogs, celebrity gossip blogs. She's labeled as a high end call girl/prostitute who's dated celebrities. She and her family are from Miami and I have her old FL DL photos too. You can pull up current photos of her online.

As far as the Florida numbers, there's about 90 numbers that weren't previously identified with the old case. From those 90 or so numbers, I've been able to narrow down the list to:

- 1) old or legitimate massage people
- 2) unknown numbers/ names that need to be subpoenaed
- 3) approx 10 girls that were underage or may know or be able to identify other underage people. I have DL photos for these girls.

As far as the subpoena returns we have, I spoke with one of the analyst and she wanted to clarify what kind of data we were hoping to get from the returns. I told her the end result was to find previously unknown underage victims.

I think [REDACTED] said you would be in West Palm tomorrow. Do you have any time tomorrow we could meet? I could bring over what I have.

Thanks,
