Well, I shared this with one of the FBI agents who recommended that, if Mr. Epstein is concerned, he should call the Palm Beach Police Department, who would, no doubt, be more than happy to provide an extra patrol around his home.

Have a good weekend, gentlemen.

I spoke to Mike McCauliffe this morning. Dershowitz asked Mike for early termination of Epstein's home confinement status. Dershowitz represented that due to the organized crime link to [REDACTED] Epstein's confinement at home may make him a target. He further represented that someone had recently trespassed on Epstein's property and that this person could have been a member of organized crime. I asked Mike if Dershowitz made this pitch with a straight face.

That being said, I told him that Epstein's request should be treated in accordance with their policies and procedures. After our conversation, he said that he saw no reason to modify Epstein's home confinement status.
