Importance: Normal

I did. She was driving and her phone was cutting out. I just sent her an emailing explaining how this all intersects and told her to hold off about making anymore contact with [REDACTED] so as to try to keep criminal vs. civil cases as separate as possible.

Did you tell her that [REDACTED] is not a victim? [REDACTED] should only be classified as a witness.

I just talked with [REDACTED]. She said [REDACTED] had identified [REDACTED] as a victim and per procedure, she made an initial contact introducing herself and sent a follow up letter. She said said that since [REDACTED] was out of county, she sometimes will drop by and introduce herself in person. She had mentioned to [REDACTED] that she would be in Ft. Lauderdale this week and would stop by to introduce herself.
