Yes. DOJ wants us to find communications between FBI and our office regarding the plea deal with Epstein. I know that [REDACTED] and [REDACTED] had some communications and possibly others in the chain [REDACTED]

Great. Do you have copies of other people's emails, too?

[REDACTED]

[REDACTED] will be contacting you. We made copies of the documents on your N and .PST. That will be what you need to review, not the originals.

Thanks for your caution with this.

Please have IT do this. They can capture the information. As a Lit Hold is already in place, I would suggest contacting [REDACTED] as perhaps the information has already been captured. I am copying [REDACTED] on this email so that she or another IT person can assist you.

Best wishes for the new year.

Subject: Question re Preservation of Electronically Stored Information re Epstein/Jane Does

Good evening, everyone. The Justice Department has made an inquiry of [REDACTED] that he has passed along to me, to review our records and gather some information for them to review. This is going to require me to search and retrieve emails and electronic documents (Word Perfect documents) to give to [REDACTED] so that he can send them to Washington. Obviously I will not be altering the documents or emails in any way, but I know that just opening the documents can change the data. Is there a way for me to do this safely?

Thank you.
