We will need to call her to get the address. [REDACTED] called me about 5 minutes ago and I told him that we needed to call her at 5:00 this afternoon (which will be 9:00 tomorrow morning her time) to discuss status and touch base with her. We can get the address then. Remember that she may be still at that hotel with the reporter, not at home. Do you want to call [REDACTED] investigator and see if they have an address?

I only have her phone number, which is 61 414651273. I think 61 is the country code.

Thanks.

Hi [REDACTED]

Who knows the outcome, but I am preparing the paperwork for the Legat request so when the decision is made it can be sent immediately if allowed. Do you happen to have her phone number and/or address? I need it for the communication. Thanks.
