[REDACTED] - I received this today, and I also received a CM/ECF of a Motion to Compel. In the Motion, the plaintiffs aver that Epstein already has copies of the requested statements. Two crucial points:

- (1) There are NO documents responsive to this subpoena. The FBI did not take any sworn statements from any of the victims, except for [REDACTED]. The only thing that would exist are reports of interviews, which are not called for by the subpoena.
- (2) As far as I know, Epstein does not have any copies of any of the interview reports. We did not turn over any discovery, reports, or anything else to him. I have a vague recollection of him trying to file a FOIA request, but I think it failed.

[REDACTED] - Can you just confirm that these two statements are correct?
