Importance: Normal

I clicked "send" too fast. Also meant to say I didn't know (or remember) about your surgery. Glad you are recuperating and back to work.

Thanks for the update about the hearing. Wishing you success in the process of becoming a magistrate. ☺

I DIDN'T REALIZE YOU WERE HAVING SURGERY. Hope your are recuperating nicely. [REDACTED] was more than happy to make contacts for you. Really likes and admires you. He even contacted me when I didn't send him the list immediately! We're pulling for you!

Subject: Epstein case and status update

Hi [REDACTED] – I hope that you are all doing well. I was out for a few weeks after my surgery, but I am back.

Yesterday, Judge [REDACTED] issued an order setting the hearing on the victims' suit against the office for August 12th at 2:00. Apparently it will be an oral argument on all the motions, and the Court will determine if there is a need for an evidentiary hearing.

On the magistrate judge matter, I have heard that there were more than 60 applications, so it is going to be a tough row to hoe. On the other hand, you and some other folks have been absolutely wonderful, so I am still keeping my hopes up.

I hope that you are all doing well in Miami.

With warmest regards,

[REDACTED]
