Hi [REDACTED]

You can replace paragraph 16 of the affidavit with the following:

On November 27, 2007, the KSP Western Laboratory Branch provided a forensic laboratory examination report regarding the biological examination of "[REDACTED]" two pairs of sweat pants and the sexual assault kit. The examination located semen on "[REDACTED]" green sweat pants and the vaginal swabs taken with the sexual assault kit.

Subject: Different stuff

Hi all – I got the fax. A lot of it is directly from the statute. This thing about the Vanity Fair article may be the perfect time to ask the SAC to call Alex about work release. I still don't believe that he is eligible without an order from the judge, and I don't think Judge McSorley will do that, but it wouldn't hurt.

Can you e-mail the list of who didn't get the letter so I can try to finalize all of them?

I talked to Jack Goldberger who claims that "there is no date." I am waiting for a call back from Barry to discuss the issue.

[REDACTED] – Can you also just e-mail a paragraph to me summarizing the [REDACTED] thing and I will add it to the affidavit? The Judge is gone for the afternoon but will be in tomorrow. My mom is having some [REDACTED] in the morning, but I will be back in the afternoon.
