[REDACTED] - With all that is going on, you may have forgotten my letter of August 23, 2007, which I reattach. We do not represent [REDACTED] Nat Dershowitz represents [REDACTED]. As to NES, we understood you added categories of documents you were requesting and also asked us to revisit the NES response to the original subpoena, and you wanted a certification. We are working on getting that done, though we may find we need a few extra days. Also, I have spoken to Nat since the August 23 letter was sent and he tells me that he understood from you that what was being requested from [REDACTED] was NES documents, not a personal appearance. I thought I would pass that along.
