Mike Tein called this afternoon, wanting to confirm details he had read in the newspaper. I told him that Judge Marra had not dismissed the victims' petition, and explained the parties were determining whether an evidentiary hearing was necessary. He asked if both Jane Doe No. 1 and No. 2 were present in court, and I told him yes.

He also asked if the government's response would be available on PACER. I told him that, since the court had denied our motion to seal, the government's response would be unsealed and placed on the docket.
