Hi ████ – Does this mean your response is good to go? On the sealed document tracking form, is there a particular statute or rule that you think gives us the right to file under seal? Thank you.

Subject: Revised Draft with DOJ Edits

Colleagues,

Attached please find the latest revision, which includes the edits suggested by EOUSA.   I have also incorporated the word "place", per ███'s suggestion.   For our DOJ colleagues, there is a new Section III, which goes into detail regarding the contact ████ had with the three victims.

Also, as to whether Edwards raises the right to fairness being violated, I was referring to paragraph five of the emergency petition, which only alleges violations of the right to consultation, notice of public court proceedings, information regarding right to restitution, and notice of rights under the CVRA.

A motion to seal has been prepared, seeking leave of the Court to seal the government's response, ████'s declaration, and the attachments to the declaration.
