Hi guys. [REDACTED] and I have been doing some digging into the Epstein situation and have found out some really disturbing info. It appears that, since Day 1, Goldberger and Krisher (the State Attorney) have been scheming to get Epstein out on work release. For example, the indictment incorrectly charges Epstein for an offense that would have made him ineligible for work release if it had been charged correctly. Krisher and Goldberger also told us that Epstein would be housed at the Palm Bch Cty Jail, not the Stockade, but he would not have been eligible for work release if at the jail.
