Subject: More good evidence

Hi guys – Another New York girl has been identified and will be interviewed next week. We also have FedEx records corroborating a girl who saw Epstein (and received a gift from him) when she was 15.

I have e-mailed CEOS about additional information in preparation for their meeting but have received no response. I don't know whether I should send them info about the additional girls (to show how this case continues to grow, and has become multi-state) or not send the info to avoid an unintentional leak to Epstein's lawyers.

I also wasn't sure whether you guys heard that [REDACTED] parents have voluntarily dismissed their case against Epstein. According to the papers here no money changed hands, but it seems unlikely. I will be issuing a subpoena for her deposition transcript.

Can someone give me an update? Thank you.
