Good morning,

Just checking if you see the \$20,000 wire came in for TerraMar yet?

Thanks,

Hi [REDACTED],

Good morning and I hope you weren't terribly impacted by yesterday's snow. We're still snowed in here, and I have no plans to snowblow/shovel until later this afternoon when I have to get into town for a meeting... we're still supposed to see a little more fall today.

Can you please check with the bank the moment they open regarding the status of our wire?

If it's in the account or at least pending – hurry!

If it's not, we need to initiate a tracer to try to find it, as they may have sent it to the wrong UBS branch, and I'll have IMMEDIA do the same. Since I haven't seen an update from them regarding the wire information, we'll go off the original confirmation text... Thanks [REDACTED]!
