Subject: Security, Control and Convenience with UBS Cards

We made some important enhancements to your UBS credit and debit cards:

Enhanced control from the convenience of your mobile device

Now you may manage your card functionality in real time through the UBS Mobile app. The new on/off function lets you temporarily deactivate your card if you misplace it. Simply reactivate it once you locate the card and save yourself the trouble of canceling it and getting a new card.

- The new geo location function can also be turned on so your UBS Fraud Prevention team may actively monitor your cards and protect you from fraud.
- Download the UBS App on your Apple iPhone and select your settings.

Expanded push notifications from Apple Pay®

- You can get real-time notices of all purchases made with your UBS cards, not just your Apple Pay transactions. Push notifications will be received for transactions made with Apple Pay, your physical card, recurring charges and online charges. View details of your last 10 transactions directly in your mobile wallet.
- No enrollment required if you've added your UBS card to your mobile wallet and enabled notifications.

Enroll easily for card alerts

- Sign up for e-mail alerts to help you monitor your UBS card activity so you'll always be in the know. Get alerts about statement available, payment due, payment received, approaching card limit, card not present, cash withdrawal, merchant credit received, international transaction, and large purchase transaction.
- Visit ubs.com/mycardbenefits and click on the Manage Accounts tab to get started.

As a firm providing wealth management services to clients, UBS Financial Services Inc. offers both investment advisory services and brokerage services. Investment advisory services and brokerage services are separate and distinct, differ in material ways and are governed by different laws and separate arrangements. It is important that clients understand the ways in which we conduct business and that they carefully read the agreements and disclosures that we provide to them about the products or services we offer. For more information visit our website at ubs.com/workingwithus.
