Title: CHOW, BLAINE, EWING

       SPECIAL TECHNOLOGIES AND APPLICATIONS OFFICE
       SPECIAL PROJECTS

Synopsis: To request the Document Conversion Laboratory
(DocLab), Records Management Division (RMD), provide scanning and
automation assistance and forward appropriate records to the
Special Technologies and Applications Office (STAO) Advanced
Concepts Unit (ACU) for formatting in support of the captioned
matter.

Package Copy: Telephone records from the captioned subject
matter being forwarded under separate cover.

Details: It is requested that the DocLab provide scanning and
automation assistance in support of the captioned investigation.

Re: 415M-MM-113529,415M-HQ-C1424550-OST, 07/08/2010

_____ Special Circumstance (**)

(*) **Note**: Includes any cases pending where telephone records were generated between 09/01/2001 and present but the matter is now closed.
(**) **Note**: In special circumstances where immediate upload is requested, the field office shall include a justification for the request.

Pursuant to a request for processing support entered into the Baleen Sweep SharePoint (http://home/teamsites/baleen-sweep/default.aspx) under this same Baleen Sweep case number and serial (one request per target), it is requested that the DocLab provide scanning and automation assistance in support of captioned investigation. In addition, STAO ACU should process the resulting OCR scans and load the toll data into Telephone Application for telephone target 954-687-4932. An over production review of the material was successfully conducted. It is understood that Baleen Sweep does not process and load subscriber data.

Miami Division uses the TA, as its centralized repository for storage and retrieval of scanned (hard copy) and electronic intelligence information in support of investigative and intelligence operations. It is requested that the enclosed telephone records be scanned at the Case File level for incorporation into TA. It is understood that the material will be saved in the following file types: TIFF, TXT, searchable PDF, and non-searchable PDF.

It is requested that the TXT files be forwarded by DocLab to STAO ACU for data formatting to support future incorporation into TA, as appropriate. The material is to be returned to Miami Division in the form that it was received at DocLab. Miami Division will have the ability to rapidly conduct key word and document control information searches on voluminous amounts of data associated with the case through the Bureau-wide investigative tool, TA.

PROVIDE A BRIEF BACKGROUND OF THE CAPTIONED INVESTIGATION AND THE APPROXIMATE NUMBER OF BOXES / PAGES AND/OR VOLUMES OF DOCUMENTS FOR SCANNING. <u>ALSO INCLUDE THE HIGHEST CLASSIFICATION (UNCLAS, CONFIDENTIAL, SECRET, OR TOP SECRET) TO INCLUDE GRAND JURY DESIGNATION OF RECORDS</u>

To: Records Management From: MIAMI DIVISION
Re: 415M-MM-113529,415M-HQ-C1424550-OST, 07/08/2010

NOTE: If the documents are not evidence, or the documents are subject to Grand Jury 6e, please state as such.

ATTENTION FOR SECURITY: Miami Division is aware of the classification level of the records being submitted to DocLab. It is the responsibility of the sender to make sure all documents are shipped in the proper manner.

ATTENTION FOR EVIDENCE SCANNING: All coordination for the temporary transfer of evidentiary material to the DocLab will be coordinated directly with Miami Division Evidence Control Technician (ECT). Miami Division is only sending documentary evidence. As necessary, the ECT has split the 1B if documentary and non-documentary evidence are co-mingled in one 1B. Also, any documentary evidence requiring forensic analysis must be submitted to the Laboratory Division first, not DocLab.

SECRET HIGH MEDIA: DocLab scans all documents classified SECRET and below on a SECRET high system called the Document Conversion System (DCS). All media returned from DCS will be classified SECRET. This does not change the classifications of the documents, just the media on which they are stored. Should you need UNCLASSIFIED media, DocLab can run the stored media through Integrity to return UNCLASSIFIED documents on UNCLASSIFIED media. Miami Division is aware that this process is labor intensive and will make the request only as necessary. Under routine conditions, DocLab can return SECRET high media faster than UNCLASSIFIED media.
