APRIL 2021

11th April 2021

Dear Fraser Ellis, MP

FIRST CONTACT - MEETING. - FIRST CONTACT  
WITH FRASER ELLIS OR ELLIS FAMILY  
NO CONTACT IN LIFETIME WITH ELLIS FAMILY  
PRIOR TO FIRST CONTACT.

I am contacting you to inform you and raise an urgent matter of importance of your awareness involving a  
criminal matter of State Government Corruption that has been occurring in the life of a member of your  
community over a 27 year period, and is still current, active and present in that persons life in the present  
year of 2021.

In 2006 - 2012 I constructed and developed 2 Medical Business Plans, designed to enhance the medical  
services available to the public, assist in the publics access to medical services and to assist Medical  
Professionals in the services they could provide for their patients, while residing in the region of Port Pirie.  
In my assistance of these developments I registered with the Regional Development Board, Port Pirie and  
continued to develop the business plans under the guidance and assistance of Business Advisors Michael  
Fetherstonhaugh and Terry Reichelt.

Refer to Stage 1A.1 Medical Business Plan - USB PROVIDED  
Refer to Stage 1A.2 M.S.I.C Development

Following numerous attempts of applying for funding and Government Funding, of which was  
continuously denied I placed the Business plans on hold and commenced the construction and development  
of my own fashion design business J Monequic, as I continued to seek funding for the previous medical  
business plan developments. In 2013 I discovered that the Medical Business Plans had been a target of  
Intellectual Property Theft and I had been experiencing numerous cases of targeted Fraudulent Activity,  
Sexual targeting and Police Targeting, which were affecting my ability to establish my career as a  
Professional Business owner, Sources of Funding and my personal life.

I am qualified in Business Management, Business Administration, a Published Author with Austin  
Macaulay Publishers, London and was accepted into the Venture Dorm Program with the Flinders  
University by Dee Edwards in 2020. I also became a part of the Eventbrite, Women in Business  
Association in 2019, when I re-located to Kadina from Adelaide, following the diagnosis of my father,  
David [REDACTED] suffering from Terminal Cancer, and the discovery that my partner at the time, having met  
him in 2018, an employee of the Adelaide University, Director of Research, Professor Vincent Bulone was  
involved in the targeted illegal activity that had affected my life causing untold damage while residing in  
the region of Port Pirie and following re-locating to Kadina.

Refer to Character Reference  
Refer to File Extreme Sexual Targeting - Vincent Bulone - Point of Interest Connections  
Refer to File Extreme Sexual Targeting - Paul Gardner - Point of interest Connections  
Refer to File Extreme Sexual Targeting - Jonnie Weston - Point of interest Connections

In 2013 following the discovery of the Intellectual Property Theft of the 2 Medical Business Plans I con-  
tacted a Intellectual Property Lawyer seeking Legal Assistance and Legal Advice - Johnson Lawyers.  
I was advised to collect documented evidence regarding the people's involvement in the Medical Business  
Plans development and seeking funding.  
In 2013 I obtained a Letter of involvement, Roger Kirchner, Director of the Port Pirie Hospital and Secret

Administration of SA Health. In 2016 I obtained a Letter of Involvement from the Regional Development Board, listing the Business advisors involved and submitted both Letters of Involvement to the Intellectual Property Lawyer, Johnson Lawyers, John James, who then denied the involvement of Roger Kirchner in the Medical Business Plans development. This denial alerted me to Suspicious Activity occurring involving the Intellectual Property Theft of the business plan (Cover up), and the illegal activity that had been targeting numerous accounts resulting in missing monies (Source of income and funding) and Fraudulent Activity.

\* In 2015 - 2017 I commenced reporting the Fraudulent activity and targeted illegal activity to numerous sources seeking investigations and assistance, which included :

- Utility Companies
- Telecommunication Companies
- Government Departments
- Legal Services
- \* • I.C.A.C - Corruption Commissioner \*

Following the numerous reports submitted I was denied all investigations, assistance and that the activity was occurring.

Following the period of contesting and reporting of this activity I began to experience extreme Police Targeting in the region of Port Pirie between the periods of 2014 - 2016, which resulted in :

- Fraudulent fines and charges
- Police brutality, resulting in permanent injury
- Illegal Representation of a lawyer - Connected to Roger Kirchner's Executive Assistant
- Falsified Diagnosis - Local Doctor
- Illegally obtained falsified diagnosis (medical records) without authority, under the act of Illegal Representation, which was submitted in the Port Pirie Court House
- Illegally court ordered Mental Health Evaluation, based on the illegally submitted and obtained medical records - Judge A. Grasso
- Court Ordered Mental Health Evaluation conducted without Legal Representation, which resulted in my detainment into Glenside mental Health Facility, under the act of a falsified diagnosis
- Denied release from Glenside Mental Health Facility by SACAT, which resulted in another falsified diagnosis of Schizophrenia and ordered onto prescribed medication administered by monthly injections over a 16 month period, which carried the side affects of causing self harm to oneself (Suicide) - Attempted Murder to Appear as Suicide (Cover up)

\* Refer to Stage 3 Police Targeting

\* In 2017 following my release from Glenside Mental Health Facility I contacted I.C.A.C, Corruption Commissioner seeking assistance and investigation into the Intellectual Property Theft and Targeted Illegal Activity, which had resulted in numerous forms of Fraudulent Activity, and submitted documented evidence to support my claim, which included:

- \* • Intellectual property Theft - 2 Medical Business Plans
- Fraudulent Activity - Missing funds - Excessive rise in Utilities and Telecommunication Systems, which also resulted in blocked and altered phone messages and contact, resulting in Isolation from family and friends - Submitted 2016 Origin Electricity bill / Excessive rise in utilities resulting in Police involvement / Corruption - CC Parking Fines, Townsville, Queensland (barcode scanned result)
- Sexual Targeting - Individuals connected and involved in the targeting
- Illegal conduct of Lawyers, doctors, police and judges involved in illegal activity

\* I was denied an investigation, assistance and that the illegal activity was occurring or was a case for the Corruption Commissioner.

In 2018, following re-locating to Kadina from Port Pirie I met Vincent Bulone, Professor of KTH Sweden University and Director of Research, Adelaide University and formed a defacto relationship with this man, and re-located to Norwood, Adelaide.

In 2018 I obtained a publishing contract of my first novel with Austin Macauley Publishers, London and continued to develop and write 2 more novels / books to be included and published as part of a 4 part series

Of the book series, the second book under contract with the same publishing house in February 2020. In 2019 I commenced the development of my own business JC INNOVATIONS, involving a 5 Stage business development of business concepts (Businesses), products, Government developments, Medical and Scientific developments. JC INNOVATIONS registered in 2019.

Following discovering the involvement of my partner Vincent Bulone in the targeted illegal activity of Intellectual Property Theft and Sexual Targeting at the end of 2019, and while my father was under treatment for terminal cancer I disconnected from Vincent Bulone and re-located back to Kadina, as a carer for my terminally ill father, and then my mother Cynthia [REDACTED] who suffered a heart condition which required a Triple Bypass operation to be proceeded, and continued to develop my business JC INNOVATIONS and develop my book series, under contract with Austin Macauley Publishers, London. The first novel of the book series was published and released in October 2020.

Following the construction of JC INNOVATIONS 5 Stage Business Strategy I applied for funding with MADEC, Employment Department (Government Department) and submitted the business concepts for review for funding under the act of the Government Departments Intellectual Property Laws. This Government funding was denied and I was referred to the NEIS Program for funding.

I was also denied assistance and funding by the NEIS Program.

Following the applied funding JC INNOVATIONS encountered Multiple Intellectual Property Theft between the years of 2020 - 2021, and the Illegal activity of Targeted accounts, Fraudulent Activity Continued, which also included the Australian Taxation Office. 2020 Altered BAS Statements resulting in

denied rebates without requesting Proof of claim. - Grant Brodie

The publication of my first novel "Reality" encountered numerous forms of blocked marketing on Social Media Websites, which impinged on the sales of the book, professional writing career prospects, exposure to the public and the investment return of the publishing house.

In 2019 - 2020 following this continued activity and the awareness of Vincent Bulone's involvement I reported the activity seeking assistance and investigation into the illegal activity of:

- Intellectual Property Theft
- Sexual Targeting
- Police Targeting
- Targeting
- Fraudulent Activity

To the following Government sources:

- Hon Steven Marshall - Premier of South Australia
- Hon Vicki Chapman - Attorney General of South Australia
- Hon Rex Patrick - Senator of South Australia
- Hon Pauline Hanson - Senator of Queensland
- Hon Adam Bandt - Senator of Victoria

Submitted with these reports I submitted 8 years of documented evidence to support my claim, which included:

- Intellectual Property Theft - 2 Medical Business Plans
- Police Targeting - Fraudulent fines and charges
- Fraudulent Activity - Including the 2016 Origin Electricity bill - Excessive rise in utilities - Queensland police involvement
- Sexual Targeting - including connections to individuals involved in the medical business plans development and police sources of involvement

This reported activity and submitted evidence resulted in :

Hon Steven Marshall - Premier of South Australia :

- Denied it was a case for the Corruption Commissioner - I.C.A.C
- Advised to seek Legal Assistance from Slater and Gordon - A law firm which contained a lawyer with the same Surname "Nuygen", which was the same Surname of the Forensic Units Mental Health Assessment that resulted in illegal detainment and falsified diagnosis - SACAT - Attempted murder to Appear as Suicide - Setup with this law firm to result in the same result as 2017. detained in Mental Health Facility and medicated under the act of a falsified diagnosis claiming that I suffered from a delusional condition to attempt a second case of Murder to Appear as Suicide (Cover up)

- Advised to contact Hon Stephen Wade, Minister of Health regarding the Intellectual Property Theft of the Medical Business Plans, which resulted in :  
Denied activity occurring  
Denied Investigation  
Denied assistance

Refer to Letters supplied : Hon Steven Marshall - Hon Stephen Wade

\* Hon Vicki Chapman - Attorney General of South Australia

- \* Advised to seek Legal Assistance from Slater and Gordon - A law firm which contained a lawyer with the same Surname "Nuygen", which was the same Surname of the Forensic Units Mental Health Assessment that resulted in illegal detainment and falsified diagnosis - SACAT - Attempted murder to Appear as Suicido - Setup with this law firm to result in the same result as 2017. detained in Mental Health Facility and medicated under the act of a falsified diagnosis claiming that I suffered from a delusional condition to attempt a second case of Murder to Appear as Suicido (Cover up)
- \* Advised to contact Hon Stephen Wade, Minister of Health regarding the Intellectual Property Theft of the Medical Business Plans, which resulted in :  
\* Denied activity occurring  
\* Denied Investigation  
\* Denied assistance
- \* Submitted article written in 2019 - Psychological View of Prostitution / Sex worker  
Hon Vicki Chapman stated that she supports the Prostitution Bill being passed to legalise Prostitution

Refer to Letter supplied : Hon Vicki Chapman

\* Hon Rex Patrick - Senator of South Australia

- \* Denied assistance
- \* Denied investigation

Refer to Letter supplied : Hon Rex Patrick

\* Hon Adam Bandt - Senator of Victoria

- Intercepted mail - Obstruction of evidence being supplied to a Senator
- \* Fraudulent email reply - Fraudulent email containing details not supplied - email contact address - JC INNOVATIONS business concept developments
- Advised to contact police regarding my safety of the targeting - Supplying advice that would endanger my safety - Police involvement / Police Targeting
- impersonating a Senators office - Harry Hook / email reply

Refer to Letter supplied : Hon Adam Bandt - Harry Hook / Fraudulent email reply

\* Hon Pauline Hanson - Senator of Queensland

- \* Denied assistance
- \* Denied investigation - Police involvement / Queensland source - Origin Electricity bill / Fraudulent activity / Queensland Police Corruption

Refer to Letter supplied : Hon Pauline Hanson

2020 - 2021 - Following contact with numerous Government Sources (as above) resulting in :

- Continuous Illegal Activity
- Multiple Intellectual Property Theft - JC INNOVATIONS
- Fraudulent Activity - Refer to File M.S.I.C Development / File D. Fraudulent Activity / File G. 2020 -  
\* 2021 Specific Targeting of an Individual, which includes Australian Taxation Office.
- Commonwealth Bank, Superannuation Funds
- Altered BAS Rebate Statements - Denied rebate without Proof of Claim - Grant Brodie \*
- Stolen / missing funds occurring during electronic transfer - Superannuation Hardship claim -
- Statewide Super
- Altered bank account details occurring during electronic transfer of contract payments to publishing house, Austin Macauley Publishers, London
- Blocked marketing / profit of investment of publishing house - Published first novel "Reality"
- Computer hacking - Email services

- Telecommunication Systems - Telstra - Hacking of Restricted Access applied account following newly created business account, change of phone number and registration under registered business JC INNOVATIONS - Fraudulent Activity

Multiple Intellectual Property Theft and Illegal Activity has been occurring under the act of Government Targeting / Illegal Government Surveillance of Privacy of own home, place of residence and has been occurring for 27 years, first recorded occurrence 1993 and continued until currently 2021, in every location of Australia, and including re-location or location, public and residence.

Documented evidence of this activity occurring over a 27 year period is in my possession and is currently being constructed to form a Legal Case against the Government Departments, Government figures, individuals involved, including employees of departments and companies, and all connections involved in the Sexual Targeting, Police Targeting, Falsified diagnosis's (medical positions), Legal Positions and seeking the representation of Peter Gordon, Gordon Legal Law Firm, Melbourne.

\* This illegal activity is still current, active and present, which has resulted in a Restricted Lifestyle to protect myself from :

- \* Sexual Targeting - Restricted interaction and forming relationships
- Intellectual Property Theft - No construction of businesses or business developments
- Fraudulent Activity - Residing with parents - No access to utility accounts / rental agreements
- Police Targeting - Isolation at place of residence
- Illegal activity - Isolation at place of residence

Restricted Lifestyle will remain in place until I have completed the construction of the evidence and have sought the Legal Representation of Peter Gordon, Gordon Legal Law Firm, Melbourne and commenced Legal Action for conviction / prosecution against the individuals involved.

- \* I advise you to refer to the following files supplied as your First Point Of Interest : - USB SUPPLIED
- Stage IA.2 M.S.I.C Development / File D. Fraudulent Activity / File 6. 2020 - 2021 Specific Targeting of an Individual - Commonwealth Bank / Australian Taxation Department\*
  - \* Superannuation Funds in reference to Altered BAS Statements. Missing Funds. Altered electronic transfer details
  - Reports written at the start of each file, and including connections involved in the Sexual Targeting Files, Fraudulent Activity files, Intellectual Property Theft files from 1993 - 2021

In 2020 I sought the assistance of the local Copper Coast Council, Kadina - Margaret Pope and supplied documented evidence to the effect of:

- Intellectual Property Theft
- Fraudulent Activity
- Sexual Targeting
- Police Targeting

And the continuous and continued targeted illegal activity occurring in the region of Kadina, but to no avail and resulted in :

- No Response
- No Reply
- No contact from the requested Internal Affairs investigation into Police Targeting in the rural sectors and metropolitan sectors of South Australia

Refer to letter provided : Margaret Pope - Copper Coast Council. Kadina

\* I have contacted various Media Sources regarding this matter seeking assistance to expose the truth and stop the targeting, who include:

- Miles Kemp - The Advertiser, Adelaide - Refer to documents provided
- In Daily - Independent Media Source, Adelaide
- \* Michael Ellis - Country Times, Kadina - Refer to document provided \* - FATHER
- Nick Perry, Editor - Country Times, Kadina

I was informed by the Media Sources that due to Media Legislation the issue must first become a Legal Case matter before they can act on publishing the Illegal Activity, Targeting and endangerment of my safety to the public.

\* I advise you to refer to reports and connections involved in the supplied evidence reports as a First Point of Interest. - TAX OFFICE FRAUDULENT ACTIVITY / ALTERED BAS STATEMENTS  
CREATING FRAUDULENT DEBTS & DENIED REBATES

As this Illegal Activity appears to be a case of State Government Corruption Specifically Targeting an Individual over a 27 year period, and involving a Corruption Syndicate of individuals involved, including Police Corruption I advise you to contact and inform the Federal Government of this activity, to be recognised, addressed and conduct a full investigation into this matter and the evidence supplied to you.

\* I have contacted you in the interest that this information may assist you in your current development of Taxation Fraud and the Legal Case that you are currently involved in, involving the State Government Taxation Fraud claims that have been laid against you, which I believe is connected to this activity reported in this letter and evidence provided. I believe that this case against you is connected to the individuals and activity involved because I contacted and supplied the information and a brief overview of the documented evidence to your brother (Michael Ellis, Country Times, Kadina) / Media Source / Risk of Exposure.

\* I do apologise for the distress this may have caused you involving the Tax Fraud / Fraudulent Activity claims, which I believe are a targeted assault to discredit you and your position in local politics, as a result of contacting your brother and seeking Media Assistance. I do now hope that the information that I have supplied to you can assist your position and re-instate your future dealings in the government position as a local member of Parliament, and clear the "Fraudulent Slur" that has, I believe targeted you.

As a member of your local community, Kadina and my family being members of your local community over their lifetime of residing in Kadina, Cynthia and David Pearce I will stand by your innocence of these Fraudulent Charges claimed against you, as I believe claimed to discredit your reputation and position, and I will assist you in anyway possible regarding this matter.

Please contact me in writing at the supplied address on the top of this letter. I am willing to discuss this matter in further detail in person if you require anymore information or my assistance in anyway.

Yours Sincerely  
[REDACTED]

Fraser Ellis MP  
Member for Narungga

Dear Fraser Ellis MP,

\* In addition to our previous contact and discussion concerning seeking assistance to report targeted activity of an individual to the Federal Agencies and Federal Government I have provided additional information, which includes Local Government involvement, Rowan Ramsey and a copy of the postal documentation and receipts of registered mail sent to the provided list of the Federal Agencies and Federal Government. The packages contain a documented report and a USB, containing the documented evidence to support the report and my claim to seek an investigation into the targeted activity, files of which I provided to you via the USB, personally delivered to your office and given to you by me during our appointment on the 25th June 2021.

On this date of our appointment, 25th June 2021, following the appointment I contacted your office by phone to inform you that the USB containing the documented evidence and Federal Government and Federal agencies files, of which you were concerned may pose a risk to your computer because of the reported malware discovered on my computer. I informed your office administration to inform you that the USB does not contain any malware and was constructed on a computer that is not connected to any internet source or is infected by malware, so will not pose a risk to any computer. The first USB of documented reports and files provided to you prior to this second appointment was also constructed from the same Computer, not connected to any internet source or infected by malware, and also posed no risk to any computer.

I am contacting you to provide my direct phone number for direct contact concerning the matters that we have discussed. Ph # [REDACTED]

\* Your office administration (older woman) had contacted my mother the day prior to our scheduled appointment on the 25th June 2021 to reschedule the appointment for a half an hour later. My mother reported to me that your office administration employee claimed to not have my phone number and had rang my mother instead to contact me about the appointment. I was unclear as to how your office administration had assumed that I was the daughter of Cynthia [REDACTED], as I do not know this woman or have entered your office at any time with my mother. This woman is unknown to my family and numerous relatives of mine with the surname [REDACTED] reside in Kadina. My mother has been instructed to not provide my phone number to any source because of the targeted Activity, of which she is aware of. The message of the rescheduled appointment was relayed to me via my mother.

I am also informing you that I had provided a envelope containing the documented report of the Telstra Head office findings of the Remote Access to servers, accounts and computer hardware by Government and Police Sources to the same office administration employee of your office (older woman) approximately 3 weeks ago, who confirmed that she would pass the envelope onto to you for me. I had provided this report during our meeting on the 25th June 2021, of which you took great interest in and proceeded to read closely, as if you had not read that report before, and questioned in my mind wether you had actually received it when I had provided it to your office 3 weeks prior, and as I had not received a reply from you regarding this information.

\*Concerning your assistance to contact the Federal Agencies and Federal Government to assist me in \*  
seeking an investigation into the targeted activity, which has been recognised by numerous companies and  
sources, I greatly appreciate your assistance and aid in my endeavour to seek assistance in stopping the  
illegal targeted activity and seeking justice of the illegal activity which has caused tremendous damage in  
my personal and professional life over the course of the 27 year history of the targeted illegal activity.

Thank you

Yours Sincerely

██████████

14th September 2021

Dear Fraser Ellis,

I am contacting you to submit Community developments and Government business developments, which I thought may be of interest to you and you could implement and place into the right hands for further development and opportunity.

As submitted in previous contact in your office, the suggestions of community developments involving the development of KFC, Millers Clothing store and a Spend less Shoes store, which I believe would be beneficial to this area as a growing commodity of conveniences and further employment in the region I would like to discuss these potential interests further.

In reference to the development of the KFC store I would like to suggest the location of the establishment as being developed on the corner of the Aldi Supermarket carpark, next to the round about, across from Cheap as Chips, as a potential growing commodity for this region.

As you know the region statistically is made of an older generation who regularly travel to Port Pirie for the conveniences of KFC, Millers clothing store and Spend less shoes, which takes the money (spending) from our region and reduces our economic growth. Within the older generation there is also the inconvenience of travel arrangements to travel to these regions, which to me would make perfect sense to provide such conveniences to this region to not only sustain the populations spending habits but also to assist in economic growth and creating employment in this region, which would greatly be beneficial as a whole.

In 2007 - 2009 I conducted a Statistical overview into Professionals in various rural regions, their spending habits and the reasons as to why these regions do not attract Professionals to the areas or remain in these areas past their contracted dates. Discovered within the Statistical Overview were the reasons.

- Lack of conveniences - Shopping
- Lack of employment for their families

These two points of interest were high on that list, which prompts you to address these issues and find solutions.

In reference to the Millers Clothing store and Spend Less Shoes I would like to suggest the location of the proposed developments as being in the vacant commercial buildings situated across from the Commonwealth Bank. In reference to this commercial building, these two developments could be the start of a small shopping mall of Specialised shops established, that could grow as time proceeded and further specialised shops were attracted to this region. In turn this would also address the Statistical Overview results of convenience and employment and also assist in the economic growth of Kadina. Establishing these conveniences in this region would also ensure that the spending habits of this community remained here in Kadina and they were no longer travelling to Port Pirie, where the wealth of our community is being spent. From my analysis of talking with the local people of this community these shopping conveniences have been recognised as being high on the list of their reasons to travel to Port Pirie.

I would like to now address the further developments submitted, Government developments addressing the issues of Cross contamination of Microbial Infections, which is a project I have written in an Executive Summary of the concept only, but have not completed past that point. Within this development I have included the issue of the current Coronavirus, which you know is a cross contamination of contact which is reducing economic growth, health risks to the public, employment and numerous other issues here in Australia. I am aware of the Immunisation Scheme which is appearing to be affective but is also still incurring some hurdles and problems through the fear of the public, and infections are still ongoing and current and creating the problem of loss of employment, closed borders, restricted travel and numerous other problems. The development that I have submitted is designed to work in conjunction with the Immunisation Scheme, which will assist in reducing the cross contamination within the hotspots of the sites of cross infection (contamination) within public locations. The implementation of this development in conjunction with the Immunisation Scheme should greatly reduce the current issues that are ongoing and reoccurring constantly and enable Australia to contain the issue by addressing the hotspots of the contamination within the public sectors, and enable the process of containing this issue to increase rapidly. The project has been addressed as the target market of the Australian Pharmaceutical Company as the developer and supplier of the implemented application of the development, which would also greatly benefit Australia's economic growth within an Australian Company. I encourage you to read the concept carefully for consideration and implement your contacts within the Government to consider this development further.

The second Government development that I have submitted addresses the issue of food wastage in farming and supermarkets and Government spending (overheads) for public establishments, which include Prisons, Public Hospitals, Rehabilitation Centres, Detention Centres, just to list a few. As with the first development of the cross contamination project this project has been written into an Executive Summary of the concept only and will require further development. I have listed the advantages for the Government, the potential of the development, benefits to the population and environmental factors, which I feel addresses some very important current issues. The development is designed to be established in Metropolitan areas and produce to be collected from Metropolitan areas and regional areas and delivered to the Distribution Centre for sorting and distribution of the produce to the addressed locations listed as an example. The establishment of the Distribution Centre not only addresses the issue of food wastage, Government overheads (spending in the public sector), Public consumption, environmental factors of landfill but also creates numerous employment opportunities, which in turn also decreases Government spending for Centrelink recipients, and boasts the Governments economic growth. I encourage you to read the concept carefully for consideration and implement your contacts within the Government to consider this development further.

I am currently not available for consultation and discussion concerning these submitted business developments as I am caring for my father who is currently undergoing cancer treatment once more, but will be available to conduct a meeting with you to discuss these projects after the 30th September 2021. If you would like to discuss the projects that I have submitted in person please contact me by the supplied phone number or email, either in writing, text or phone call after this date. I would be interested in discussing this in detail further with you.

Ph : [REDACTED]

Email : [REDACTED]

I would also like to thank you for your assistance regarding our previous meetings and the issue that I raised that is currently effecting my life. I have taken your advice seriously and am now currently considering taking the next step by contacting the Captain of the Kadina Police Department to contact the Federal Agents that I informed you of, and try and get this issue resolved by this channel, involving the targeting of Port Pirie and connected associated criminal figures.

I look forward to hearing from you regarding the submitted projects and to arrange an appointment to discuss them further.

Kind Regards

## **CONFIDENTIAL - JC INNOVATIONS - 2019**

### **EXECUTIVE SUMMARY - PROPOSAL - INNOVATIVE DEVELOPMENT - GOVERNMENT SCHEME - COMMERCIAL - INDUSTRIAL - WORLDWIDE POTENTIAL**

#### **FOOD WASTAGE DEVELOPMENT - COLLECTION AND DISTRIBUTION CENTRE Collection and Distribution Centre owned and operated by the Government located in major metropolitan locations**

Incorporating the surplus of growers produce and commercial surplus to be collected, sorted and re-distributed for public, commercial and industrial use eliminating the substantial wastage of food produce, decreasing costs for government funding to Hospitals, Detention centres, Medical facilities and other sources of funding for this facilitation and increasing the governments profits in these areas. Reducing the costs to the public for food consumption for low income earners, individuals on a limited income, individuals seeking to save costs of food supplies and supplying a higher choice of food products to these individuals who can not on a usual basis afford to purchase specific healthy products, which increases the health of each individual and decreases the health risks involved in an inadequate diet due to the cost of living.

#### **COLLECTION - EXAMPLE:**

- Growers paid by the ton upon delivery of surplus
- Produce delivered to Collection and Distribution Centre by the growers
- Growers - Transportation Scheme rebate - Delivery to Collection and Distribution Centres from country areas and locations outside the metropolitan areas - Scheme offered to growers located a certain radius from the centre

#### **DISTRIBUTION - EXAMPLE:**

- Distribution to established fruit and vegetable stores in low income areas / districts - markets ect
- Distributed to Public Hospitals - Mental Health facilities - Medical establishments involving public services
- Distributed to incarceration centres - jails - Detention centres ect
- Distributed to welfare shops selling produce at discounted rates - example, United Wesley Care, Australia
- Homeless kitchens - shelters
- Exported to high unemployment areas - Low income areas
- Government funded public services

#### **ADVANTAGES - GOVERNMENT**

Profit from sales - Government

Reducing costs in public hospitals, incarceration centres, food supplies, public services

Reducing costs from Tax profits - Increasing profit for Government to be utilised for other developments and infrastructure

In question - Worldwide Government Scheme - Governments working independently and hand in hand - Exports, Imports, Distribution

Environment - Reducing landfill and wastage - reducing costs

Centres established and located worldwide

Collection and Distribution Centres creating employment positions - decreasing unemployment - decreasing costs of unemployment payments - increasing profit margins

in taxes for government

Unemployment Scheme - Employment positions offered to Centrelink recipients -  
decreasing Centrelink payments - Training, for example : forklift tickets - Truck licences -  
Bench sorters - Positions within the centre

### **GROWTH - INDUSTRY - COLLECTION AND DISTRIBUTION CENTRE**

Extending to further food wastage - damaged goods collected from supermarkets,  
manufactures ect. Supermarkets - Breads - meats - dented/damaged canned goods -  
broken/damaged packaged goods - close to due date products  
Meats and breads frozen - close to date - distributed frozen - stickers marked/indication  
for example : Must be consumed once thawed - distributed to same outlets as suggested

### **COLLECTION**

Collected by Collection and Distribution Centre - Paid in bulk/amount by weight or mass

### **EXTENDING - GROWTH OF INDUSTRY**

Packaged products - damaged packaging - reduced shelf life - produce

For example:

Cleaning products, cosmetic products, all packaged food products, personal products eg.  
Shampoos, soaps, conditioner, toothpaste ect, confectionery, bottled water, juices, soft  
drinks, canned products, pet foods, frozen goods, meats, breads

### **CONCEPT OF REGISTRATION PROCESS - EXAMPLE**

Growers and companies delivering/providing to Collection and Distribution Centre are  
registered clients with the centre - client data base - providing bank details, monies/  
payment for produce once weighed or counted is then deposited directly into their  
provided bank accounts via the client data base registration details - No cash on premise

### **EMPLOYMENT CONCEPT - GOVERNMENT INCENTIVE SCHEME**

Employment and training offered to long term unemployed - migrants - immigrated who  
are on unemployment benefits - difficulties of employment through language barriers

- Creating employment opportunities
- Reducing Centrelink payments and recipients
- Casual employment - Reduced Centrelink payments
- Fulltime positions - Cancelled Centrelink benefits - Increase in tax profits to  
Government

### **POTENTIAL**

Enabling the consumer - low income areas - high unemployment areas - pensioners -  
single income families - single parent families - youth - students - To purchase produce  
that is currently unaffordable - Offering healthy food choices - Increasing food supply -  
Lowering health risks through poor food choices/dietary measures

Increasing sales - economy in these areas - increasing profit and GST profit/taxes for  
Government in these areas

Increasing profit margins for growers, industries involving food manufacturing and sales -  
Decreasing food wastage in these areas - loss of profit

### **POTENTIAL**

Business development - Business owners - Stores established specifically to sell this  
produce - creating economic growth - sales - creating employment - increase in taxes/

profit margin for the Government - GST - Employment taxes

### **ENVIRONMENTAL FACTORS**

Decreasing the need for extensive landfill areas - increasing the potential of development upon the unused land - growing economy - reducing costs involved

### **BENEFITS - POPULATION**

Affordable healthy produce - increasing health through diet consumption - decreasing health related issues - decreasing demand on public healthcare services and systems - reducing costs on public healthcare services funded by the Government

### **COLLECTION AND DISTRIBUTION CLIENT BASE - EXAMPLE**

- Farmers/growers
- Supermarkets
- Stores
- Manufactures
- Butchers

### **TACKLING CURRENT ISSUES**

- Environmental issues - landfill
- Food shortage
- Unemployment
- Healthcare costs and issues - public
- Economy - growth
- Food wastage
- Costs of government funding - public services

### **POTENTIAL**

- Reducing funding costs - increasing profit - Government
- Increasing profit margins - Growers and suppliers
- Creating opportunity - employment
- Increasing land mass for development
- Reducing costs - unemployment benefits - Government - Taxes
- Increasing profit - sales and taxes - GST - Government
- Increasing economy growth

**CONFIDENTIAL - JC INNOVATIONS - 2019**

**EXECUTIVE SUMMARY - MEDICAL RESEARCH PROJECT**  
**Designed 2016**

## **DECONTAMINATION PROJECT TO PREVENT MICROBIAL INFECTIONS**

**Airborne germs - Cross Contamination - Airborne Contaminates - Colds - Influenza**  
**Associated airborne contaminants**

Formula developed and expelled through the use of air conditioner units within these specific establishments and travel services eliminating the threat and cause of cross contamination, decreasing work related capacity and productivity within the individuals, stopping the spread of infections from country to country through airline services and including physicians, medical, dental clinics or employee's of these establishments. Eliminating the threat of cross contamination, lawsuits involved in medical issues, food establishments, airline services and public vehicle carrier services. Purifying the air in close proximity to the individual, areas of close proximity which include carrier services of public transport and airline services, medical establishments, waiting rooms, dental clinics and instruments used in such practices. Targeting untreatable symptoms unsuitable for antibiotic prescribed medications, which include Influenza, colds and other airborne cross contaminants.

### **SPECIFICATIONS - TARGET MARKET**

- Transport services
- Bus services
- Airline services
- Train services
- Tram services
- Workplace environments - Office areas
- Doctors surgery's - Waiting rooms - Consultation rooms
- Accommodation services - Hotels - Motels
- Food preparation services - Kitchens - Kitchen staff
- Dental Clinics - Consultation rooms - Office areas - Waiting rooms
- Education Departments and services - Class rooms - Office areas
- Medical services / Establishments - Surgery rooms - Wards - Office areas - Hospitals
- Business class - VIPS - Prominent positions - office areas - Personal residence - First class travel services and areas

### **LICENCES AND LEGAL REQUIREMENTS**

Research required for government or medical approval

### **TRADING RECOMMENDATIONS**

Research required and under subject of licences and legal requirements

### **ADVANTAGES - INCREASE - DECREASE**

- Decrease cross contamination of germs through mouth, nose, touch of objects or other persons
- Increase in work related capacity and productivity - Work place environment
- Decrease cross contamination within medical establishments, Hospitals, Dental

- clinics, Golden Staff as an example - Mouth sores, colds, Influenza - Increasing productivity and capability within the medical establishments work environment, employee's, patients, practising physicians
- Decrease cross contamination in relation to travel services and accommodation services within the clientele and employee's
- Increasing productivity and attendance in educational environments
- Eliminates cross contamination within food preparation environments and all above mentioned services involved in serving food - Public and personal
- Provides special services for VIPS, Professional positions, prominent positions, First class travel services - Eliminates cross contamination, increases productivity of the individual, work place environments, employee's, personal establishments - residence
- Increases and reduces costs of sterilization services - safety of instruments and equipment exposed and used within the medical establishments including doctors surgery's, Hospitals, Dental clinics
- Decreasing the use of prescribed antibiotics - Immune system creating other symptoms to occur, including multiplying effects of super bugs associated with Influenza and other non bacterial diseases
- Covid Virus - Contact contamination - Travel services - Medical establishments - Age care accommodation - Businesses

Example - Formula - Replaceable cartridges or filters - Expel formula

Eucalyptus Oil - Base oil of formula combined with natural product extractions and Pharmaceutical products as an example

Target Developer - Australian Pharmaceutical Company

VICTIM MANIPULATED BY GOV SOURCE - FRASER ELLIS MP

CONFIDENTIAL  
Fraser Ellis MP

28th February 2022

Dear Fraser Ellis MP,

Firstly I would like to thank you for acting on the information I provided regarding the medical services in the rural regional areas and sectors, and congratulate you on a job well done. I overheard the public announcement regarding medical students receiving Government support on loan repayments concerning continuing their doctorates in rural regions. I do believe this is a step in the right direction and will encourage further medical students to consider their options and relocate to rural regions, which will greatly benefit those areas. I have been addressing this issue since 2007 and it was of great satisfaction to finally get a result following submitting the information to you, a Government official who regarded the information as a serious issue and acted. I was impressed and will endeavour to support your position and Government campaigns in anyway I can.

On another note, I have not heard of the outcome of your court proceedings regarding the ICAC investigation but do hope you can prove your innocence and all goes well for you, as I do still believe in your innocence and understand the distress this must have caused you.

I would also like to take the time to address your new direction as an Independent leader and do believe it is a step towards a better position for you, although a transitional period is inevitable, but want you to know you have my support 100%.

On the issue of which I reported to you and was seeking your assistance of ongoing targeted illegal activity that has affected my life, an issue of Organised Targeted Crime.

I did contact the Kadina Police Station for assistance but it was to no avail and received no assistance, and was not addressed on a serious note, but it was very informative, judging by their reactions.

I continued my investigations into this matter myself and finally following 8 years of reporting this activity made headway, lets say leaps and bounds in the right direction and the reported illegal targeted activity continued to be verified and confirmed as the reports and evidence submitted stated, I am a victim of targeted Organised Crime, illegal activity against me being conducted by numerous, multiple sources. The reported illegal activity was verified and confirmed by numerous sources contacted who recognised the illegal activity as a serious matter and provided their action and support. I am continuing my endeavours to remove this horrendous attack from my life and rebuild my life here in Kadina, my hometown, free from this 27 year ordeal of Targeted Organised Crime and will project myself into a new direction of building a business in the medical industry here in Kadina, the rural sector. I am aiming to gain a degree in Psychology and establish my own Private practice and endeavour to assist other people to better themselves, their lives and offer them support by providing them with a true understanding of troubled issues, life's ups and downs, hard knocks and provide my wisdom through my own life's experiences to assist in guiding towards a new direction.

EFTA00261916

I have provided numerous documents for your review and to provide you with the outcomes of my further investigations and the results I obtained and hope it gives you the peace of mind to further your directions as an Independent Leader and helps to support your decision as having made the correct choice for your career.

I did come to your office to discuss further the business developments and information I provided on last contact but have not been contacted for an appointment as informed, to which I did not fully understand as I was trying to assist you and offer my support to develop this community and Australia as a whole, but understand you must have had your reasons, considering your own ordeal and the current circumstances.

I also proceeded to contact you via your official email service to make an appointment but encountered blocked system to the server and could not submit the email. As contained in the Telstra Head Office report it has been confirmed that the Criminal targeted activity of Fraudulent and malicious activity in all computer systems and Telecommunication servers has been a result of Remote access to servers and digital devices resulting in the illegal activity, which has also included blocking my pathways to contact and assistance, in an attempt to entrap me in isolation and the targeted crime.

I am unsure if this was the case when trying to contact you for an appointment but am informing you of my attempted contact to discuss the business developments in further detail.

I am progressing with the reports and seeking assistance to the ongoing issue that I had raised during our last meeting, regarding the targeted criminal activity with pleasing results, and which has now progressed to internal investigations within OPI, the Corruption Commissioner, following submission of the file Chentelle Defoe, which obviously and precisely details the crimes being committed, having been committed and ongoing since the year of 1993 - 2022, as a continuous pattern, and the individuals involved and connected.

I advise you to review this file in particular first as it does contain documented evidence of your innocence of the ICAC allegations and your willingness to assist me with the reported plight of targeted criminal activity that has affected my life. I have provided the reply letters I received from OPI for your review and confirmation of the lines of investigation being conducted into the targeted illegal activity now in progress.

Once again I thank you for your assistance, and would like to inform you that your support was invaluable and much appreciated.

I have previously provided my contact details if you do wish to discuss any matters further, or I can be contacted in writing to ensure I receive your correspondence, considering the blocked contact issues with computer systems and Telecommunication systems.

Yours Sincerely

██████████

**Fraser Ellis MP**

28th April 2022

Dear Fraser Ellis MP,

I am contacting you in regards to my recent experience at the Wallaroo Hospital Emergency Ward, concerning my recent event of suffering from an Acute Allergy reaction as a result of the Covid-19 Pfizer vaccine immunisation, first dose.

On presenting myself at the Wallaroo Hospital Emergency Ward 7 days following the immunisation administration presenting obvious symptoms of an allergy reaction, which involved a hive like rash covering my face, neck, chest, legs and arm regions and commencement of sinus and facial swelling I was assessed by a doctor, appearing as if to be a medical student, who through his obvious inexperience and lack of knowledge with the symptoms of allergy reactions diagnosed me with suffering from a viral infection and prescribed Phenergan for the rash, and I was discharged.

Two days later following my first presentation at the emergency ward of the Wallaroo Hospital the symptoms of the allergy reaction had extremely escalated to the hive like rash appearing as skin lesions, the facial swelling now escalated to severe swelling and the allergy reaction had spread and escalated to my respiratory system resulting in compromised breathing / breathing difficulties, and swelling and congestion blocking sinus and nasal passages. When presenting myself for the second time at the emergency ward presenting compromised breathing / Respiratory system distress and complications I was admitted to the ward to be assessed and examined by a doctor and remained waiting in the examination room for a period of 2 hours, while struggling to breathe and catch a breath. I informed the nurse numerous times of my breathing difficulties and my now severe distress and was continually informed that the doctor was tending to other patients. On the last attempt to gain urgent medical attention from the nurse following a 2 hour waiting period, while clearly struggling to breathe and now suffering from chest pains the nurse informed me that the doctors were now changing over and the new doctors on site then proceeded to tend to the other patients who had already been seen by the previous shift of doctors. I proceeded to listen to the other patients complaints while the doctor tended to them while I continued to wait and urgently needing medical assistance for breathing difficulties. The other patients, who had already been treated explained to the new doctors on shift that the pain in their feet had elevated, or the back pain they had presented when admitted had been elevated but did not hear a complaint of an urgent need for medical assistance or care as a result of chest pain or breathing difficulties.

Following hearing this and now disgusted and feeling panicky concerning my breathing difficulties I walked out and discharged myself in the hope that if I called an ambulance when I got home I may actually receive the urgent medical care I urgently required.

When I arrived home in Kadina I laid down on my bed exhausted and feel to sleep instantly without even knowing, I had basically passed out from breathing difficulties.

The next morning I awoke early and was now suffering from escalated breathing difficulties of Rapid breathing, heart complications and shooting pains across all parts of my head, which felt like brain related

EFTA00261918

swelling of pain and sharp pains. I rushed once again to the Wallaroo Hospital Emergency Ward for the third time, accompanied by my parents Cynthia and David [REDACTED] and was immediately met with aggressive distasteful and arrogance from the triage nurse and a younger doctor at the front desk when we started to explain the Urgency in getting medical assistance and that this was the third time I had been trying to get urgent medical assistance.

I was then immediately placed into the examination ward and examined by the triage nurse who proceeded to berate me for leaving the night before, and while suffering from acute breathing difficulties of rapid breathing and extreme pain and suffering, an attitude unnecessary and disgusting towards any patient, especially one in so much medical distress.

I was immediately assessed and examined by an experienced doctor, Dr Birss, who quickly diagnosed me with Acute Allergy Oedema as a result of an allergy reaction to the Covid-19 Pfizer vaccine immunisation administered on the 8th February 2022 at the Royal Adelaide Hospital Specialist Vaccination Clinic, on the advice of an Allergist / Immunologist, Dr Adriana Le, who ignored a referral by Dr Richard Daehn, Kadina Medical Association and the need for his patient to be tested prior to administration of the immunisation due to my extensive medical history of suffering from acute allergy reactions to previous vaccines and medications. I am currently also addressing this matter with Dr Adriana Le and the CEO of Central Adelaide Local Health Network, Lesley Dwyer, involving a case of Medical negligence.

I was prescribed a course of Prednisolone 25mg by Dr Birss and discharged from the emergency ward. I was informed to repeat the treatment plan with a second course if symptoms continued following the first course of treatment, of which was required due to the severity of the Allergy reaction. I continued to suffer from ongoing medical conditions following the second course and was advised to continue with Phenergan until all symptoms dissipated. I am still currently suffering from ongoing symptoms to this day, April.

I am aware of your current involvement in rectifying the issues the public are facing in the current medical industry / system and having now experienced and faced some of those issues myself I would like to provide some information of my research into the medical industry and system I conducted in the years of 2006-2012 while developing a Medical Business Plan, while residing in the district of Port Pirie.

#### Emergency Ward - Wallaroo Hospital

- Inexperienced doctors on site - To be constantly trained in all areas of medical conditions- continual training programs
- Supervised by an experienced doctor overseeing examinations, diagnoses and medical procedures at all times
- Inexperienced Triage nurses supervised for a period of time and applied continuous training in recognising urgent medical treatment requirements - Breathing difficulties for example
- Construction of a computer program for a reference point for inexperienced doctors and nurses to be utilised when assistance is unavailable by an experienced supervisor. Computer program containing symptoms, rare symptoms, rare reactions and conditions, medical diagnosis information and medical treatments plans and emergency plans and practices

#### Managing Emergency Ward treatment Rooms

- Emergency ward separated into two sections - Urgent medical care required - Non urgent medical care required - Doctors appointed to each separate section separately so both sections are working independently together and in conjunction with each other - More experienced doctors and nurses working Urgent medical care required - Less experienced doctors and nurses working Non urgent medical care required before rotating to urgent medical care required section when becoming more experienced

Management of staff involving Medical Negligence, attitude towards patients, incompetence or Inexperience

- Each section / department of the hospital requires a Manager and a Managers assistant who oversee all operations and functions of the staff and hospital department. Assistant of the manager reporting back to the Manager on procedures, functionality, employee functions and attitudes towards patients, including capability, competence, bed side manners - On site watch dog reporting all Misdemeanours or impractical functions and procedures directly to the Manager as they occur
- Misdemeanours of staff, employees functions, procedures are reported and addressed immediately and harshly by the Manager - Heavy hand of Management - On site Management at a constant level and expectations of training of staff and employees and behaviour to remain at a high standard of practice
- Complaints and patient feed back delivered and addressed directly to the Management of that section or department and if not satisfied with the result or issue resolved forwarded to the Medical Commissions to be used in addition to Management and Management assistant procedure / Watch dog procedure of each section

Supervisors - Experienced doctors, Triage nurses and nurses

Retirement Employment Supervisor Scheme

Retired doctors, nurses, Specialists and Triage nurses employed on their terms on a part time basis to

Supervise inexperienced doctors in emergency wards, nurses and Triage nurses.

Their terms involve:

- Day of the week - Their stipulation
- How many days a week - Their stipulation
- Stipulated times and hours - Their stipulation

Reason for on their terms : A more inviting package to encourage their continual involvement on a part time basis in the medical system as a part time paid employment role.

I hope this information has been helpful in your mission in rectifying the issues in the current medical system that is currently affecting the members of the public in regional locations and provides an insight into how you could provide the solutions to the current problems.

If you wish to discuss this matter further I would be willing to provide more information and further discuss these matters in depth. I am still currently in the possession of the Market Research I conducted between the years of 2006-2012 and would be happy to share this information with you and assist you further with the brilliant work you have been doing and have done so far.

Yours Sincerely

**Confidential**  
**Fraser Ellis MP**

28th April 2022

Dear Fraser Ellis MP,

In addition to my previous contact regarding the issue of my support of your innocence concerning the ICA, OPI allegations made against you following their investigation into allegations of Fraud and Deception concerning the claim of travel allowances I have continued to push the issue of the documented evidence I have in my possession, submitted to you on numerous occasions in constructed case files, which precisely and obviously outlines the Fraudulent activity within several Government Departments, which includes the Australian Tax Office.

The files supplied to you indicate and precisely document fraudulent activity and deception that occurred in the Australian Tax Office, which involved altered BAS statements resulting in created fraudulent debts, altered BAS statements resulting in denied business rebates on business setup costs, altered balances of Superannuation funds in holding in their office and missing funds of Superannuation released funds occurring during electronic transfers and conducted by the Australian Tax Office

Concerning other Government Departments involved in Fraudulent activity I constructed a case file concerning Housing SA, which precisely and obviously documents an account of a Fraudulent created debt of a housing bond. This housing bond in concern was paid in cash to a Real Estate Agent in Port Pirie, which was then claimed against me by the Real Estate Agent at the end of the lease, which was then claimed with Housing SA by the Real Estate Agent. Housing SA proceeded to process the housing bond claim as a Housing SA bond and charged me with the debt of the claimed bond, claiming it was an Housing SA bond. This was incorrect, as documented in obvious form that the bond was actually paid in cash and was not a subject of a Housing SA bond.

Following finalising the Fraudulent created debt paid in full by me Housing SA then proceeded to recreate the debt and charged me with the debt for a second time, which is obviously Fraud and Deception on their behalf.

In concern to my investigation and seeking assistance to the issue of Targeted Organised Crime involving numerous and multiple sources, which include Government Departments, as discussed in your office of which you agreed to assist me I continued to construct the case files and submitted the files to ICAC, OPI for investigation and a request of assistance. The files submitted contained the precise and obvious constructed case files of the Australian Tax Office and Housing SA, as explained, which was obvious Fraud and Deception by both parties involved, Government Departments.

Following the submission of these files to ICAC, OPI I received a written reply stating, ICAC, OPI will not investigate this matter and denied that it was a case of Corruption, Fraudulent activity or deception and closed the case.

Based on this reply and denied action by ICAC, OPI it is obvious and clear that ICAC, OPI falls under the suspicion of not investigating Corruption, Fraudulent activity and deception and are actually involved in Fraudulent activity and deception themselves, and are covering up true claims and submissions of Corruption, Fraud and deception conducted by Government sources and Government departments, which brings them into question and their investigation into your claims and activities, a Government source, a Government official in the Government system, and the allegations they alleged against you.

EFTA00261921

This brings into question that the ICAC, OPI allegations made against you are actually incorrect and are Fraudulent and Corrupt activity, deception by this Government Department.

I have supplied the two case files in question and the denied investigation by ICAC, OPI for your review and to support the information contained in this letter.

In relation to your ongoing legal proceedings regarding the allegations by ICAC, OPI, which I support your claim of innocence, especially in light of the outcome of my contact with ICAC, OPI I suggest that you proceed with a court ordered Independent investigation conducted by the Royal commission into the allegations and activities of ICAC, OPI, and as you are in the possession of the case files I supplied and was the Senator, Government Official that had agreed to assist me in seeking assistance you do have the evidence in your possession of the fraud and deception conducted by other Government Departments, of which ICAC, OPI has now denied to investigate, which does cast suspicion on them as being involved in creating falsified allegations against you, especially when the evidence obviously points to the fraud and deception actually being conducted in the Australian Tax Office itself and numerous other Government Departments.

ICAC, OPI have failed to investigate my claims since the year of 2016, 2017 and now again in 2022, which does indicate their involvement in foul play and suspicious activity by this department themselves.

I have supplied this information to you in my support of your innocence and my knowledge of the deceptive activities of ICAC, OPI and to assist you with your legal case and of proving your innocence against the allegations made against you by ICAC, OPI, and am willing to sign a legal document so that you may disclose this information in a court of law if you decide to proceed with the ordering of an Independent Investigation by the Royal Commission into the allegations, and concerning the supplied information and the activities of ICAC, OPI themselves.

In addition I have also submitted the constructed case files to the High Court, who could not assist me but have been briefed on the subject and the case files that were submitted to ICAC, OPI. I have also submitted the case files to the Royal Commission requesting an investigation and assistance into this matter, but as this is just recently submitted I am still waiting a reply.

I have supplied a USB of the constructed case files Chentelle Defoe and JC Designs, which contain the files as explained in this letter, the Australian Tax Office and Housing SA, and advise you to review the information thoroughly to support your case.

The file Housing SA is located in the file Chentelle Defoe in detailed form and the file Australian Tax Office is located in the file JC Designs in the file 2018 Sexual Targeting.

All of my computer system hard drives have been thoroughly cleaned of all traces of viruses, malware or corrupt files by a computer specialist and the constructed case files supplied have been constructed on a computer that has been permanently disconnected from the internet or remote access functions following this process, so the USB supplied does not contain anything that could compromise your computer system and is safe to use and review.

I hope this is of some assistance to you and am wishing you the best outcome in these proceedings. As stated in previous contact I am 100% behind you and support you 100%.

Congratulations on your Election Victory !

Yours Sincerely

Fraser Ellis, MP

15th August 2022

Dear Fraser Ellis, MP

In continual support of your innocence involving the allegations made against you by ICAC / OPI involving acts of Fraudulent activity and Deception I have provided documented evidence of deception and criminal activity conducted by the Government Department ICAC / OPI, involving the Illegal operation of this Government Department under the act of Intellectual Property Theft, Deception by this Government department involving Knowledge of Intellectual Property Theft, acts of illegal targeted activity conducted by various Government and Police sources, Conspired cover up of the illegal targeted activity and the Government sources involved in the illegal targeted activity, Including the Intellectual Property of the Government Department ICAC / OPI, which was a business development of the targeted victim / myself in 2013 during my residence in the township of Port Pirie, Conspiring in Obstruction of Justice under the act of conspired cover up involving the Government sources involved in the illegal targeted activity of Government and Police targeting and involvement in the Entrapment of the targeted victim in the Government and Police targeting. In turn this documented evidence is evidence of their deception and the falsified conspired allegations against you and this Government departments involvement in Conspired Discredit of your reputation , which is an act of Deformation of Character and involvement in a Smear campaign against your political career and position and your personal reputation.

I have provided this evidence in your defence and hope it places you in a position to place ICAC under suspicion of involvement in Criminal activity and to result in the allegations being withdrawn against you and the conduct of an investigation into ICAC / OPI commences and the employees involved charged under the evidence of involvement in criminal activity and Conspired acts of Deformation of Character and knowledge of the Government sources involved in the conspired allegations and targeted activity.

I support you 100% and firmly believe in your innocence of these allegations made against by ICAC/OPI.

Refer to USB supplied : File B. ICAC 20%

In reference to further information provided on the USB provided I have supplied documented evidence of the Government targeting being connected to Epstein and Maxwell, New York, London and the American and Australian Government connected to these to parties in acts of running Sexual Abuse Rings involving prominent people, Destruction of Career for Sexual Purposes, Acts of Grooming victims for Sexual Abuse Rings / Sexual Targeting, Direct targeting of the victim by Maxwell and Epstein, and documented evidence of the Australian Government source involved in Multiple counts of Intellectual Property Theft involving Epstein and Maxwell.

I encourage you to investigate this file thoroughly with focus on the email contact made by Epstein and Maxwell involving the design of the logo for the business Intellectual Property of MSIC, Medical Professionals Communication Tool and Digital referral system, an original business concept of the 2006-2009 Medical Business Plan, The Specialist Medical Centre. The logo design was conducted online via email between the targeted victim, myself and Maxwell, Adam Gurgly, London UK during the year of 2010.

EFTA00261923

I, the targeted victim was directly targeted by Epstein and Maxwell during the development of the Medical Business Plan, targeted online during the years of 2006-2013.

The documented evidence containing email contact involving Maxwell / Epstein and NEIS, Government Department of Australia clearly and obviously proves that the Australian Government sources involved in the illegal targeted activity are connected to Epstein and Maxwell, and the illegal targeted activity is a result of targeting by Government and Police sources involved in Sexual Abuse Rings and grooming of targeted victims for sexual purposes.

The obvious documented evidence of this act involving Government and Police targeting involving Sexual Abuse Rings, and the fact that this is the result of the previously submitted documented evidence of the illegal targeted criminal activity that I previous sought assistance to involved the email contacts received by :

NEIS / Australian Government Department received as NEISTraining20%

Maxwell / Adam Gurgly MSIC Logo Design received as MSICLOGO20%

Refer to file C. Epstein-Gov 20%

In reference to further documented case files of constructed documented evidence contained on the USB, I am currently still in the process of completing the construction of The Legal Case files, Epstein and Maxwell for the purpose of seeking assistance with the American Justice Department and New York Justice Department, Criminal Division and [REDACTED], who is the person involved in the co-ordination of victims of Epstein and Maxwell case.

I have contacted these parties involved in this case via email but have not received a reply for obvious reasons, as it has been Confirmed my contact to assistance via email or phone services are being blocked by the Government and Police sources involved in a persistent effort to keep my entrapped in the targeted criminal activity, which has been the result of 10 years of seeking assistance , investigations and contacting multiple and numerous sources via email and phone, which has resulted in Interception of mail, Fraudulent email replies, blocked contact via Telecommunication Systems, denied illegal targeted activity, denied investigations, denied assistance and Conspired attempts on my life through Australian Medical systems and Medical Professionals.

The targeted illegal activity involving Government and Police sources has been confirmed as illegal targeted activity by multiple and numerous sources during the period of 2019-2022, and while residing in Kadina under your leadership. Until this period the continuous reporting of this illegal targeted activity, and while I resided in the region of Port Pirie had been denied continuously and all other sources, including Government officials of Port Pirie and Australia had denied me assistance.

I would like to praise you for your acceptance and agreeing to meet with me and discuss this matter when seeking your assistance. I have been denied all assistance and meetings with all other Government sources in Australia and praise your strength of character and reputation in standing for your community members and your support of community issues, and firmly believe in your political position of your care for your community and the people within it and the Intellectual directions you are injecting into politics and the Australian Government.

I am once again seeking your assistance in resolving the act of targeted criminal activity that has targeted my life for over a 30 year period, commencing at the age of 14 years of age in this region of Kadina and continuing over a 30 year period in all locations and regions of Australia.

I am requesting your assistance in contacting the Criminal Division of New York and [REDACTED], who have been involved in the Epstein and Maxwell criminal case involving Sexual abuse of minors and multiple counts of criminal activity and their involvement in Sexual Abuse Rings and providing the Legal case files I have provided to you to these parties.

As informed my contact to these parties and Departments is being intercepted and blocked and I remain entrapped in the targeted illegal activity while residing in this community and Australia.

Fraser Ellis MP  
Member for Narunnga

1st September 2022

Dear Fraser Ellis MP,

I am contacting you to supply you with the report that I submitted dated 16th August 2022, concerning the Medical Negligence of the Wallaroo Hospital, as discussed during our meeting and the contact details of the Complaints Commissioner that your office supplied.

As discussed the report contains all details of the Medical Negligence, which include the Triage nurse issue, misdiagnosis upon first presentation at the Emergency Clinic, which in turn resulted in a life threatening situation, the attitude of the staff, the negligence of not treating a patient with compromised breathing, which involved the Triage nurse not prioritising urgency of the patients, and also as discussed the lack of recognition from the Head nurse of the hospital when supplied with a written report of the emergency situation and extreme negligence of the staff involved.

The report supplied is self explanatory and I do now hope that this issue involving the Wallaroo Hospital will become recognised and urgently addressed to reform the ongoing medical issues within this system and improve the Medical Care of this community.

Regarding the further issues discussed I supplied contact details via email regarding the medical infrastructure developments I supplied previously and a point of contact on which to start to discuss the implementation of the reformed infrastructure, in order to improve and facilitate the current issues this community has and is facing at this current time concerning the medical treatment and conduct of the Wallaroo Hospital.

I am still currently in further negotiations with the medical claim of the Medical Negligence concerning the Acute Allergy Oedema reaction that I suffered as a result of the Covid19 Vaccine, and as I expected they are playing ball at the moment with trying to direct me to claim the Government Compensation Claim for reactions to the Covid19 vaccine, but as I explained to them the acute reaction was not pertained specifically to the Covid19 vaccination, but a case of Medical Negligence and Medical Malpractice of the Medical Professionals involved due to my Medical History of previous acute allergy reactions to previous vaccines and several medications, which placed me in a high risk bracket and the Medical professionals involved failed to conduct testing for an allergy reaction according to the referral by Dr Daehn, Kadina Medical Association. I will inform you of the outcome once finalised.

I hope this supplied information is helpful in your target goal of improving the state of the medical infrastructure of this community and once again you have my complete support. I will speak to you again soon to discuss the ongoing issues and progress of this outcome and to supply anymore information or solutions to assist you in this endeavour.

Yours Sincerely

Fraser Ellis MP  
Member for Narunnga

31st January 2023

Dear Fraser Ellis, MP,

I am contacting you to submit a report for your review and consideration to be submitted in the up coming Country meeting involving Government concerns of Community issues and community members community issues and concerns within our township of Kadina. Unfortunately I will not be able to attend this up coming meeting and am requesting following your review and consideration of the submitted report and material you will be able to raise my concerns yourself with the Government sources visiting our district and will be considered as a concern of Public Safety issues and concerns to be addressed.

As detailed in the reports I do believe that these issues raised are of importance to this community as Public Safety issues and concerns and as a member of this community I am currently experiencing these raised issues which I feel is affecting my life here in Kadina as a community member in an adverse way to my life style and safety, which had inadvertently affected multiple areas of my life and has forced me to live my life here in Kadina with caution and a form of isolation in my place of residence, which I feel is a real issue of concern and should not be a factor in ones life.

I would appreciate your consideration of this raised issue of my life being affected by these issues here in Kadina and would appreciate your consideration in assisting me by submitting the submitted reports and material for further consideration by the Government member attending the up and coming Country Meeting to be held in Kadina.

Further to this contact as detailed in the previous contact I will contact you soon to discuss the idea submitted regarding the walking trail development and idea I suggested regarding tourism ideas in this area.

Yours Sincerely

#### POLICE VICTIMISATION OF COMMUNITY MEMBERS - KADINA - KADINA POLICE DEPARTMENT

30 years previous to 2023 - Kadina

Kevin Barton - Steven [REDACTED]

Wrongly accused by an off duty police officer in Kadina of Hoon driving

Kevin Barton was physically assaulted by the off duty police officer during the process of the off duty police officer wrongly accusing Kevin Barton of Hoon driving within the community of Kadina and him denying the allegation

Kevin Barton reported the physical assault of the off duty police officer and pressed charges

Following reporting the off duty police officer of the wrongful allegation resulting in physical assault Kevin Barton was victimized and harassed by multiple police officers of the Kadina Police Department until he felt he did not have a choice but to drop the pressed charges against the off duty police officer and proceeded to drop the charge to avoid any more police targeting, victimization and harassment while he remained residing in Kadina

#### **PUBLIC SAFETY ISSUE AND CONCERN CONCERNING POLICE TARGETING AND VICTIMISATION IN THE COMMUNITY OF KADINA - KADINA POLICE DEPARTMENT POLICE - PROVIDING NO PUBLIC SAFETY OF COMMUNITY MEMBERS AND ENDANGERING THEIR LIVES**

Nicole Oliver - Community Member - Kadina - Married a Police Officer - Kadina Police Department

Nicole Oliver, Kadina ceased the relationship / marriage with a police officer of the Kadina Police Department

Following the ceased relationship with the police officer of the Kadina Police Department Nicole Oliver suffered continuous and constant police harassment, victimization and stalking within the township of Kadina by multiple police officers and including her ex husband, the connected police officer which was conducted by the police officers against her for years following the ceased relationship

**GETTING INVOLVED IN PERSONAL MATTERS OF OTHER POLICE OFFICERS WITHIN THEIR DEPARTMENT RESULTING IN A GANG MEMORABILITY OF VICTIMISATION AGAINST A WOMAN OF THE COMMUNITY**

#### **PUBLIC SAFETY OF COMMUNITY MEMBERS AND ENDANGERMENT OF THEIR LIVES - WOMEN COMMUNITY MEMBERS HAVING NO ACCESS TO PUBLIC SAFETY WITHIN THE COMMUNITY DUE TO THE VICTIMISATION OF THE POLICE DEPARTMENT OF KADINA - LEGAL SERVICES FOR PROTECTION**

2015 - Reporting of Suspected Child Abduction - Port Pirie community member to Kadina Police

Department during period of community member of Port Pirie being subjected to Police Targeting of the Port Pirie Police Department following reporting recognized targeted criminal activity in her life

During reporting the suspected Child Abduction to the Kadina Police Department using a Telstra telephone box near Meadow Crescent, Port Pirie the community member was informed by a police officer of the Kadina Police Department **"we are not collectors of information"**

Community member reporting the matter did not proceed with the report and did not contact the Port Pirie Police Department or any other police department due to the ongoing issues with being targeted by police in the community during this period of 2015

Following not proceeding with the report to the Kadina Police Department the Kadina Police Department contacted the Port Pirie Police Department and certain police officers involved in the current ongoing police targeting of the community member came to the community member house of residence and stated they had been contacted by the Kadina Police Department concerning the report

The community member of Port Pirie did not proceed to make a report of the suspected Child Abduction due to recognizing the male police officer, Jake Austin, Port Pirie Police Department as one of the police officers continuously involved in 2014-2016 Police Targeting occurring following the community member reporting recognized targeted criminal activity in her life

**PUBLIC SAFETY ISSUE AND CONCERN CONCERNING POLICE TARGETING AND VICTIMISATION IN THE COMMUNITY OF KADINA - KADINA POLICE DEPARTMENT POLICE AND INCLUDING COLLABORATING VICTIMISATION WITH PORT PIRIE POLICE DEPARTMENT - PROVIDING NO PUBLIC SAFETY OF COMMUNITY MEMBERS AND ENDANGERING THEIR LIVES**

**PUBLIC SAFETY OF COMMUNITY MEMBERS AND ENDANGERMENT OF THEIR LIVES - WOMEN COMMUNITY MEMBERS HAVING NO ACCESS TO PUBLIC SAFETY WITHIN THE COMMUNITY DUE TO THE VICTIMISATION OF THE POLICE DEPARTMENT OF KADINA - NO LEGAL SERVICES FOR PROTECTION OR REPORTING SUSPECTED ILLEGAL ACTIVITY WITHIN COMMUNITIES**

**2014-2016 PORT PIRIE POLICE DEPARTMENT - STALKING OF COMMUNITY MEMBER WITHIN THE TOWNSHIP OF PORT PIRIE - EVERY LOCATION AT EXACT MOMENT THE COMMUNITY IS IN THAT LOCATION ON EVERY OCCASION OF LEAVING FROM HER PLACE OF RESIDENCE FOLLOWING THE COMMUNITY MEMBER REPORTING RECOGNISED TARGETED CRIMINAL ACTIVITY IN HER LIFE AND SEEKING ASSISTANCE**

2021 - Community member contacted local member of Government Fraser Ellis, MP - Community Projects and Public issues and Concerns

Following the community member contacting the Local Member of Government Fraser Ellis, MP to discuss local community projects and community and public issues the community member encountered multiple events of being stalked, followed by multiple police officers of the Kadina Police Department in Every location of the township at exact moment the community member is in that location, as occurred in Port Pirie 2014-2016 and escalated to the community member being followed into shopping locations / Woolworths multiple times and police officers proceeding to try to introduce themselves to her , being followed down highways from Adelaide to Kadina, being followed while walking / exercising in morning hours, standing on corners of the street while community member is posting mail in Australia Post Kadina location and watching community members movements

Following these events conducted by the Kadina Police Department continuously the Kadina community member then encountered Police targeting again in Port Pirie conducted by Port Pirie Police Department while taking her terminally ill father, terminal cancer to the Port Pirie District Hospital for Cancer treatment / Chemo - Kadina Community member was followed into the hospital grounds by the police officer in a police vehicle - occurring at exact period of Kadina community member encountering Police targeting in the location of Kadina community as stated above

**2014-2016 COMMUNITY MEMBER OF PORT PIRIE REPORTING RECOGNISED CRIMINAL TARGETED ACTIVITY IN HER LIFE RESULTING IN CONTINUOUS POLICE TARGETING AND DENIED REPORTED ACTIVITY WHILE RESIDING IN PORT PIRIE WAS CONFIRMED AND RECOGNISED AS THE COMMUNITY MEMBER REPORTING THIS ACTIVITY WAS A VICTIM OF ORGANISED CRIME AND THE CONFIRMED REPORTS WERE OBTAINED, RECOGNISED AND CONFIRMED AS ORGANISED TARGETED CRIM WHILE RESIDING IN KADINA UNDER THE LEADERSHIP OF LOCAL MEMBER OF GOVERNMENT FRASER ELLIS, MP  
THE ORGANISED TARGETED CRIME AGAINST THE COMMUNITY MEMBER BEING CONDUCTED 2007-2022 INVOLVED GOVERNMENT AND POLICE SOURCES AS COMMITTING THE ORGANISED CRIMES AGAINST HER**

**PUBLIC SAFETY ISSUE AND CONCERN CONCERNING POLICE TARGETING AND VICTIMISATION IN THE COMMUNITY OF KADINA - KADINA POLICE DEPARTMENT POLICE AND INCLUDING COLLABORATING VICTIMISATION WITH PORT PIRIE POLICE DEPARTMENT - PROVIDING NO PUBLIC SAFETY OF COMMUNITY MEMBERS AND ENDANGERING THEIR LIVES**

**PUBLIC SAFETY OF COMMUNITY MEMBERS AND ENDANGERMENT OF THEIR LIVES - WOMEN COMMUNITY MEMBERS HAVING NO ACCESS TO PUBLIC SAFETY WITHIN THE COMMUNITY DUE TO THE VICTIMISATION OF THE POLICE DEPARTMENT OF KADINA - NO LEGAL SERVICES FOR PROTECTION**

2020 - Community members cousin - Kadina

Cousin of community member encountering police harassment, stalking and victimization reported a suspected break and enter of her property to the Kadina Police Department

A male police officer attended the reported activity at her place of residence in community of Kadina and encountered suspicious sexual activity conducted by the male police officer who had proceeded to ask her personal questions about her personal life and provide personal information about his personal life and ignored the details provided concerning the police report of the suspected break and enter of her property and refused to take the cigarettes left at her property containing DNA of the suspect, and informed her that the police officer knew of a woman wandering the streets and entering houses and she was harmless and did not proceed to investigate the report, or provide any form of public safety of home owners, and was proceeding to ask the community out on a date during this procedure - Improper conduct of a sexual nature while on duty

**SEXUAL ENDANGERMENT OF COMMUNITY MEMBERS BY POLICE OFFICERS - SEXUAL TARGETING OF COMMUNITY MEMBERS WHILE ON DUTY AND COMMUNITY MEMBERS REQUESTING LEGAL ASSISTANCE FOR PUBLIC SAFETY**

**PUBLIC SAFETY OF COMMUNITY MEMBERS AND ENDANGERMENT OF THEIR LIVES - WOMEN COMMUNITY MEMBERS HAVING NO ACCESS TO PUBLIC SAFETY WITHIN THE COMMUNITY DUE TO THE VICTIMISATION OF THE POLICE DEPARTMENT OF KADINA - NO LEGAL SERVICES FOR PROTECTION**

2017 Port Pirie - Mother of Community member who was residing in Port Pirie 2014-2016, a community member of Kadina following the continuous police victimization, targeting and harassment against her daughter conducted by the Port Pirie Police Department reported the police activity of the police department to the Captain of the Port Pirie Police Department in defense of her daughters innocence, which was Confirmed in 2019-2022 as her daughter being a victim of organized targeted crime involving Government and Police sources

During the mother reporting the activity of the police officers of the Port Pirie Police Department to the Captain the Captain of this police department stated "I had no idea this was even happening" and made comments about one of the officers of his department behavior of which he was aware of , Jake Austin (who was involved in 2014-2016)

During this report made by the mother the Captain retrieved the targeted daughters police records written by the police officers involved which contained falsified information of the daughter being involved in substance abuse and charged by the police officers. The mother of the daughter of the police targeting informed the Captain that her daughter had documented evidence to disprove this allegation and had not received any form of notice or fine to this effect or court order

Police activity of this nature stopped once the community member (daughter) relocated to Kadina in 2017

The daughter is a born and bred community member of Kadina , born 1971 Wallaroo Hospital and relocated to Adelaide at the age of 17 - No Police activity - relocated to Port Pirie 2003 - Continuous Police activity 2007-2023 - Port Pirie Police Department and Kadina Police Department

Community member (daughter) was denied all access to her police file or reports in 2016 under the Freedom of Information Act by SAPOL

**CAPTAINS OF POLICE DEPARTMENTS HAVING NO KNOWLEDGE OF POLICE OFFICERS WITHIN THEIR DEPARTMENTS ACTIVITIES OR BEHAVIOUR WITHIN COMMUNITIES AND INVOLVING COMMUNITY MEMBERS**

**PUBLIC SAFETY ISSUE AND CONCERN - NO AUTHORITY BY LACK OF KNOWLEDGE OF POLICE OFFICERS ACTIVITIES OR CONDUCT WITH COMMUNITY MEMBERS BY CAPTAINS OVER POLICE OFFICERS WITHIN THEIR DEPARTMENTS**

- KEVIN BARTON
- NICOLE OLIVER
- COMMUNITY MEMBER 2021-2023 - KADINA
- COMMUNITY MEMBER 2014-2016 - PORT PIRIE

2022 - Illegal criminal targeted activity Confirmed by safety - On advice of Esafety following community member reporting continuous targeted criminal activity in her life while residing in Kadina entered the Kadina Police Department station to report the activity and seek legal police assistance

Community member was met by a male police officer at the counter of Kadina Police Department and proceeded to report the illegal targeted activity as advised by Esafety to gain police assistance.

The male police officer stated the issue was outside of his expertise but informed her that he would contact a Detective to handle the matter and proceeded to take her personal contact details and informed her that she would be contacted by the police department to proceed with the matter

The community member received no contact from this police department following making this report and seeking police legal assistance

Second attempt - Community member seeking police legal assistance under the advice of Esafety following no contact from the police department following first report - Kadina Police Department

Community member was met by a male officer at the counter of the Kadina Police Department and proceeded to explain that she had made a report previously and had not received any contact concerning the matter and that she had been informed during the first report that a detective had been contacted and was being sought for the matter

The male officer scoffed at the community member and proceeded to not take any details concerning the report of the matter but proceeded to make a phone call to the first officer involved during first contact of reporting the matter

During the phone call the male officer was laughing with the first police officer involved in the first report and the community member heard the police officer mocking the member of the local Government Fraser Ellis, MP and stating "What's he going to do pull rank over us - laugh - laugh"

Following the phone call the police officer returned to the counter to the community member and informed her that they had not received contact from the detective but were still waiting for contact and still did not take any form of report or details concerning the reported matter

Following this information the community member proceeded to request to speak to the Captain of the Kadina Police Department but was informed by the police officer who stated "he's not going to want to speak to you" and denied the community access to making an appointment with the Captain of the Police Department

The community member 2023 has still not had any form of contact from the Kadina Police Department

Dear Fraser Ellis, MP,

I am contacting you to inform you of Medical Information i have received and advised to give you. Dr Richard Daehn, Kadina Medical Association, Port Road, Kadina has informed me that it would benefit you greatly to arrange a meeting with him to discuss the current local medical system regarding this location of Kadina, and what you are currently working on politically to improve the medical services within this area. This advice was his own recommendation as he is very knowledgeable in this area and supports your political efforts to improve the medical system in Kadina.

I hope this information is of use to you and you are able to continue your brilliant work in this area.

Yours Sincerely

[Redacted]

To: [Redacted] <[Redacted]>

Hi [Redacted],

Thank you for your email. It is wonderful to hear Dr Richard Daehn would like to speak directly to Fraser regarding our local health system. Fraser is more than happy to meet with professionals in this field to try and sort solutions.

Please encourage Dr Daehn to contact our office to arrange a time to meet with Fraser.

Have a great afternoon.

To: Narungga EO <[redacted]>

Dear Sarah,

Yes wonderful news that the local GPS are interested also in getting the system here sorted and want to provide valuable information to assist.  
I will contact Dr Daehn and inform him of the recommendation.

Have a nice day!

Sincerely

**From:** Swinnen, Marina (Health)  
**Sent:** Friday, 3 March 2023 1:45 PM  
**To:** [REDACTED]  
**Subject:** HCSCC Ref. number [REDACTED]

Good morning Ms [REDACTED]

I refer to your complaint to the Office of the Health and Community Services Complaints Commissioner (HCSCC) about your experience at Wallaroo Hospital.

On 11 November 2022, the HCSCC commenced pre-conciliation inquiries into your complaint under section 30 of the *Health and Community Services Complaints Act 2004 (SA)* (the Act).

#### Yorke and Northern Local Health Network (YNLHN)'s response

On 24 January 2023, Mr Roger Kirchner from the Yorke and Northern Local Health Network provided a response to your complaint. In his response, Mr Kirchner stated:

- You attended the hospital three times on 18, 22 and 23 February 2022.
- On 18 February 2022, you attended the hospital at 09:05hs and a registered nurse reviewed you at 09:20am. All observations were normal. You were 10 days after a COVID-19 vaccine administration and the doctor prescribed cetirizine and antihistamine as a treatment for allergic reaction. The allergic reaction was thought to be due to a viral infection and the medication prescribed followed the clinical pathway.
- On 22 February 2022, you presented at 17:25hs and were seen at 18:34hs. Your observations were again within normal parameters, except for a slightly elevated pulse rate. An ECG was taken and shown to the doctor. The doctor was notified of your presence in the department at 19:00hs. At that time, the doctor had multiple patients waiting and it is up to the doctor to prioritise appropriately based on clinical need of all patients. You decided to leave at 19:45hs because you were feeling better. This was against clinical advice to stay. You were advised to return if concerned.
- On 23 February 2022, you arrived to the ED at 8:31hs and were seen by a nurse at 8:45hs and by a doctor at 8:52hs. Again, the observations were within normal parameters apart for a slightly elevated heart rate. Examinations showed a swollen face and rash with anxiety. The diagnosis of allergy was made again and a short, reducing course of steroids was prescribed following clinical pathway.
- There are four types of allergic reaction. The type IV reaction is a delayed reaction which takes up to 72 hours to develop. A longer time to develop reactions can occur but is a different type of reaction, such as a granulomatous reaction. This is why the first doctor made a diagnosis of an allergy due to viral infection and not the COVID-19 vaccination which was administered 10 days prior to the first attendance.
- There are no records of incidents or staff's poor behaviour or attitude during your presentations.
- Unfortunately, the hospital's Director for Nursing and Midwifery did not reply to your first letter.
- After an investigation into your complaint, YNLHN is confident that your treatment was appropriate.
- YNLHN acknowledges that the waiting time of your second visit was longer than the hospital would like. However, your observations were normal and you would have been seen by a doctor if you had chosen to stay.
- YNLHN also acknowledges that you felt your treatment could have been better.

On 13 February 2023, the HCSCC sought a response from YNLHN as to whether they would consider your request for compensation.

On 1 March 2023, YNLHN advised the HCSCC they decline to consider your compensation request because:

- The COVID-19 vaccine was not administered by them; and
- The care provided for the subsequent reaction was appropriate.

YNLHN further advised us consumers who have experienced harm from COVID-19 vaccine can seek compensation via the COVID-19 vaccine claims scheme: [COVID-19 vaccine claims scheme - Services Australia](#).

#### HCSCC's preliminary views

The HCSCC is of the view YNLHN has provided appropriate information and explanation to address your complaint. The HCSCC's conciliation is a voluntary process and we are unable to seek compensation if YNLHN declines to participate in the process.

In light of the above, the HCSCC considers your complaint has been addressed to the extent it can be.

I would be grateful to receive your comments about YNLHN's response by **close of business Monday 13 March 2023**.

The HCSCC will consider your comments together with YNLHN's response and determine whether further action is appropriate under the Act.

Dear Fraser Ellis,MP,

I am contacting you to submit the final outcome of the medical complaint I submitted to the complaints commission concerning the Wallaroo Hospital.

As detailed in the forwarded email I received from the complaints commission the Wallaroo Hospital is under the influence and directorship of Mr Roger Kirchner of the Port Pirie district Hospital of which he is also director of. As we all know, and as a previous resident of Port Pire the Port Pirie Hospital is operating at a proficiency not seen in the Wallaroo Hospital but are under the exact same leadership, influence and input of Mr Roger Kirchner, which does bring into question why there are so many issues concerning the operations of the Wallaroo Hospital and our community members are preferring to attend the Port Pirie Hospital.

I am submitting the received outcome of my complaint with the complaints commission containing Mr Roger Kirchners denied complaint involving the Wallaroo Hospital and the near fatal incident that I suffered due to the inefficiency of the Wallaroo Hospital emergency department that is under the directorship and influence of Mr Roger Kirchner, and submit this report in support of your medical government parliamentary petition to detach the Wallaroo Hospital from this influence and directorship and to reform and restructure the Hospital to be under the operations of our communities independent influence and directorship.

I submit this report in a 100% support of your office and the marvellous work you are achleving in getting this issue recognised and restructured to serve the members of our community in a proficient manner that will no longer suffer from the ongoing complaints and crucial issues regarding healthcare in our community.

Sincerely

OFFICIAL: Sensitive

Good afternoon Ms [Redacted]

I refer to my email of 3 March 2023 in regard to your complaint to the Office of the Health and Community Services Complaints Commissioner (HCSCC) about your experience at Wallaroo Hospital.

In my email, I gave you the opportunity to provide any comments you may have by close of business 13 March 2023.

At the time of writing, I have not received any comments from you.

As advised, the HCSCC considers your complaint has been addressed to the extent it can be.

I will proceed to draft outcome letters and close your complaint.

Kind regards

**Marina Swinnen**

This is why the first doctor made a diagnosis of an allergy due to viral infection and not the COVID-19 vaccination which was administered 10 days prior to the first attendance.
- There are no records of incidents or staff's poor behaviour or attitude during your presentations.
- Unfortunately, the hospital's Director for Nursing and Midwifery did not reply to your first letter.
- After an investigation into your complaint, YNLHN is confident that your treatment was appropriate.
- YNLHN acknowledges that the waiting time of your second visit was longer than the hospital would like. However, your observations were normal and you would have been seen by a doctor if you had chosen to stay.
- YNLHN also acknowledges that you felt your treatment could have been better.

On 13 February 2023, the HCSCC sought a response from YNLHN as to whether they would consider your request for compensation.

On 1 March 2023, YNLHN advised the HCSCC they decline to consider your compensation request because:

- The COVID-19 vaccine was not administered by them; and
- The care provided for the subsequent reaction was appropriate.

YNLHN further advised us consumers who have experienced harm from COVID-19 vaccine can seek compensation via the COVID-19 vaccine claims scheme: [COVID-19 vaccine claims scheme - Services Australia](#).

#### HCSCC's preliminary views

The HCSCC is of the view YNLHN has provided appropriate information and explanation to address your complaint. The HCSCC's conciliation is a voluntary process and we are unable to seek compensation if YNLHN declines to participate in the process.

In light of the above, the HCSCC considers your complaint has been addressed to the extent it can be.

I would be grateful to receive your comments about YNLHN's response by **close of business Monday 13 March 2023**.

The HCSCC will consider your comments together with YNLHN's response and determine whether further action is appropriate under the Act.

Kind regards

**Marina Swinnen**

**Complaints Resolution Officer**

**OFFICIAL: Sensitive**

Good morning Ms [REDACTED]

I refer to your complaint to the Office of the Health and Community Services Complaints Commissioner (HCSCC) about your experience at Wallaroo Hospital.

On 11 November 2022, the HCSCC commenced pre-conciliation inquiries into your complaint under section 30 of the *Health and Community Services Complaints Act 2004 (SA)* (the Act).

**Yorke and Northern Local Health Network (YNLHN)'s response**

On 24 January 2023, Mr Roger Kirchner from the Yorke and Northern Local Health Network provided a response to your complaint. In his response, Mr Kirchner stated:

- You attended the hospital three times on 18, 22 and 23 February 2022.
- On 18 February 2022, you attended the hospital at 09:05hs and a registered nurse reviewed you at 09:20am. All observations were normal. You were 10 days after a COVID-19 vaccine administration and the doctor prescribed cetirizine and antihistamine as a treatment for allergic reaction. The allergic reaction was thought to be due to a viral infection and the medication prescribed followed the clinical pathway.
- On 22 February 2022, you presented at 17:25hs and were seen at 18:34hs. Your observations were again within normal parameters, except for a slightly elevated pulse rate. An ECG was taken and shown to the doctor. The doctor was notified of your presence in the department at 19:00hs. At that time, the doctor had multiple patients waiting and it is up to the doctor to prioritise appropriately based on clinical need of all patients. You decided to leave at 19:45hs because you were feeling better. This was against clinical advice to stay. You were advised to return if concerned.
- On 23 February 2022, you arrived to the ED at 8:31hs and were seen by a nurse at 8:45hs and by a doctor at 8:52hs. Again, the observations were within normal parameters apart for a slightly elevated heart rate. Examinations showed a swollen face and rash with anxiety. The diagnosis of allergy was made again and a short, reducing course of steroids was prescribed following clinical pathway.
- There are four types of allergic reaction. The type IV reaction is a delayed reaction which takes up to 72 hours to develop. A longer time to develop reactions can occur but is a different type of reaction, such as a granulomatous reaction. This is why the first doctor made a diagnosis of an allergy due to viral infection and not the COVID-19 vaccination which was administered 10 days prior to the first attendance.
- There are no records of incidents or staff's poor behaviour or attitude during your presentations.
- Unfortunately, the hospital's Director for Nursing and Midwifery did not reply to your first letter.
- After an investigation into your complaint, YNLHN is confident that your treatment was appropriate.
- YNLHN acknowledges that the waiting time of your second visit was longer than the hospital would like. However, your observations were normal and you would have been seen by a doctor if you had chosen to stay.
- YNLHN also acknowledges that you felt your treatment could have been better.

On 13 February 2023, the HCSCC sought a response from YNLHN as to whether they would consider your request for compensation.
