

RECEIVED NO REPLY / NO RESPONSE
DELIVERED PERSONALLY TO KADINA COPPER COAST COUNCIL
USB DOCUMENTED EVIDENCE SUPPLIED

* 9th March 2020 *

Jacqueline Pearce

* Dear Margaret Pope, *

I am contacting you to inform you of illegal activity that is being conducted within this local region, rural regions, metropolitan areas of Australia that is also has connections into America. I have collected various forms of documentation and personal details of this activity over a 15 year period, and as provided upon the the attached flashdrive. I can not report this activity to any police sources as this form of authority which is meant to uphold the law are involved in the criminal activity being conducted, and also including connections to corrupt government sources. This activity has targeted my life over a 15 year period and is still present and active today. I am still experiencing continuous and constant police presence within this area in every location upon me leaving my place of residence. I am also still experiencing unknown men following me and making advances of a sexual nature within this area. My cousin has also experienced an unusual event with a police officer in Kadina when she reported an attempted break in recently at her place of residence. The police officer stated that he had knowledge of a woman in the area that was conducting that kind of behaviour on numerous property's but she was nothing to worry about. The police officer refused to take the cigarette butts and money left at my cousins premise by this woman as DNA evidence and the officer became disinterested in the crime and switched the conversation to talking about his work schedule, when he had time off and got personal as if making personal advances towards her. It made her feel very uncomfortable and found the whole experience odd and unusual.

On another occasion when I was residing in Port Pirie I made an emergency phone call to the Kadina Police Department to report a suspected missing/stolen child in Paul Gardner's possession - India Rose . The police officer stated - "We are not collectors of information", and sent the Port Pirie Police Department to my residence - One of the officers, Jake , who is involved in the police targeting activity attended. As written in the reports on the flashdrive.

* As this activity indicates that some of the police officers within this local region may be involved and the activity also is connected to corrupt government sources I suggest that this information of which I have supplied be supplied to Internal Affairs here in Australia to conduct an investigation *
and also to a woman in congress within America to conduct an investigation into the connection of corrupt police involvement - Zac - as written in the sexual targeting report.

* As this is an urgent, serious matter of an elaborate organised crime I urge that this requires immediate attention and action. *

* I am currently contacting various senators within Australia and am in the process of contacting
* Adam Bandt, MP, Greens Party, Melbourne, Victoria and Pauline Hanson MP, Queensland and a lawyer Kylie Pligl, KP Lawyers, Wallaroo to request and supply information to various sources and to seek legal advice.

If required I can supply further documentation upon your request.

I have also supplied this evidence to the Centrelink office, Kadina who has secured my file and placed it within restricted access.

* I urge you to take serious action quickly and immediately. *

Yours Sincerely
Jacqueline Pearce
