EXECUTIVE PRODUCER

1st February 2022

Dear Ms Kristy Thomson,

I would like to take this opportunity to introduce myself, my name is Jacqueline Pearce, I am an Australian Citizen and a qualified professional of Business Management, Business Development, Business Administration and am a published author under contract with the publishing house Austin Macauley Publishers, London UK.

I am contacting you in concern to an ongoing issue of Organised Targeted Crime involving multiple SA Government sources, SAPOL sources, police sources, and individuals involved and connected in Organised Crime, and has targeted my life for a period of over 27 years.

In 2012-2016 I became aware of numerous discrepancies in documentation involving Fraudulent activity of created debts, Fraudulent and Malicious activity in Telecommunication Systems and Fraudulent activity in Utility billing accounts that suddenly incurred Excessive Rise in billing Balances.

Until the year of 2012, the period when I first became aware of unusual events occurring I was in the process of establishing a Fashion Design Business J Monequic, and previous to this business development I was in the process of another business development 2006 - 2012 Medical Business Plan and M.S.I.C Medical Professionals Communication tool and digital referral system, which was a development of a specialised medical centre, which was completed in the year 2009 and 2012, as a registered client of the Regional Development Board, Port Pirie, Michael Fetherstonhaugh, Business Advisor.

The 2006-2012 Medical Business Plan development encountered constant and continuous denied funding from multiple sources, and including Government funding.

In 2008, SA Health, Dr David Panter, SA Health, SA Premier, Mike Rann and the Minister of Health, Hon Jon Hill announced publically the future development and objectives of a new Specialized Medical centre GP Plus Healthcare Centre's, containing the Exact objectives and business concept as my business development still under development 2006-2009 Medical Business Plan - Suspected in 2013 to be the result of Intellectual Property Theft involving SA Health, SA Government and SA Medical Association - Confirmed in 2021 as Intellectual Property Theft under the act of Government targeting of an Individual

In 2013 I contacted an Intellectual Property Lawyer, Johnson Lawyers, Adelaide, John James and contested to the effect of the Intellectual Property Theft of my 2006-2012 Medical Business Plan and M.S.I.C, Medical Professional Communication tool and digital referral system, that has been

EFTA00267939

Confirmed as being in the possession of Country Health SA, Belinda Moyes, which was a business development of the 2006-2009 Medical Business Plan and was still under development until 2012.

In 2013 I was informed by John James, Johnson lawyers to obtain documented evidence of the individuals involved in this business development as evidence to support my allegations.

I proceeded to obtain the documented evidence of involvement as advised by contacting the individuals involved in the business development and obtaining Official Letters of Involvement from them, who included Roger Kirchner, SA Health, Country Health SA, Director of Port Pirie District Hospital, Michael Fetherstonhaugh, Regional Development Board, Port Pirie and Hon Jon Hill, Minister of Health in the period of 2013-2016.

In 2016 I submitted the obtained Official letters of Involvement obtained by the named sources containing the official evidence of their involvement in the 2006-2009 Medical Business Plan as advised in 2013 by John James, Johnson Lawyers to support my claim and to proceed in forming a Legal Case of Intellectual Property Theft involving the names contained within the documented evidence of Official letters of Involvement.

Following the submitted Official Letters of Involvement, documented evidence to John James, Johnson Lawyers I received a reply directly from John James, Intellectual Property Lawyer stating "there is no documented evidence of Roger Kirchner (SA Health) involvement connecting him to the Medical Business Plan development"

This reply alerted me immediately to something unusual being conducted behind my back without my knowledge.
