Dear SDNY and USAMA

I just read updates on the Ghislaine Maxwell case. Maxwell was operating in Stuyvesant Town during the time I live there and reported being followed, photographed, filmed.

Please I would like to know if the evidence in the Ghislaine Maxwell case includes any photographic, film, video and such of me. If possible, if I am in any of those images, then I would like to have input any decision made on the unsealing. If I am a victim, as I have proven to be victimized when I proved the fraudulent, rape-inciting HBO casting and photo shoot with Sacha Waldman - then I want to do what is needed to make certain justice is reached in full.

I appreciated the opportunity to weigh-in on the Madoff case and that Mr Madoff remains behind bars for his "extraordinarily evil" crimes. All these crimes are connected to each other in this blackmail, extortion racket of traffickers, tax fraud criminal enterprise.

Thank you
