

BILL **BENSLEY**

I started this venture called BENSLEY with an atelier in Bangkok in 1989, and another shortly after in Bali 1991. 25 years later we are some 150+ designers, artists, landscape architects, interior designer, but primarily we are architects. My gorgeous multitalented staff are my long time companions and most have been with me for 15+ years.

My prime interest, like Frank Lloyd Wright, is to design the architecture, interiors, gardens, uniforms, and all of the thousands of small details like menus, trash can, tabletops++ as a complete seamless package, for the best of the five star hotels.

I love to make unique statements in the word of hospitality.

Thank you so much for your kind interest in our design endeavors.

cheers,

Bill Bensley
