Dear Darren,

I am afraid my list of tasks, projects, construction issues, maintenance issues etc. is quite limited. My responsibilities here are a bit different from other people's responsibilities. However, I of course, want to try to help out in any way I can when it comes to you compiling your list for 2009!

-I know that **Wind Power** has been a concern for JE on his island. Back on April 28, 2008, JE had me send an email to John Amerling requesting he have his "Industrial Size Wind Power Presentation" ready for Jeffrey by May 15<sup>th</sup>. I would think that Amerling provided JE with this presentation, but I do not know for sure the status.

-On Oct. 22, 2008, Jack Pryor, called to speak to JE about his company **SoleWind Power**. Jack is partners in this company with General Wes Clark. I believe you have also had a conversation with Jack. (Jack Pryor [REDACTED]) (General Wes Clark [REDACTED]) I do not know the status of this project.

-JE is also interested in **Solar Power** for the island. Michael Sonnenfeldt, an old friend of JE's, actually contacted Jeffrey about Sol, Inc., a company he chairs back on June 9<sup>th</sup>, 2008. We exchanged a few emails where JE asked Michael if he could help with solar power for his island...Michael responded with "We manufacture Solar Powered lights, so we have a number of different solar powered light systems that together could light an entire island's paths, roadways, driveways, signs, patios etc. Let me know what would be useful"

Jeffrey wanted me to put Michael in touch with Doug Schoettle. I gave Doug all of Michael's details via email as well as left him a message on his cell. I remember I actually spoke to Doug one time when he was in the office and he said he had not yet communicated with Michael...I do not know the status of Doug/Michael. The

last time I reached out to Michael per JE's request was Aug. 14<sup>th</sup>. At this point Michael said he was still interested in trying to help JE out. Around mid to late September I was calling and emailing Michael per your (Darren's) request, but Michael never did respond back. (Michael [REDACTED] [REDACTED])

-Jeffrey would like to hire an experienced paralegal with complex civil litigation experience or even civil class action experience. You had me call Jes Staley and Leon Black to see if they might know of someone. Neither of them did. You then tried calling the Mark Dryer firm HR dept. to see if they might be letting someone go who would fit our requirements. I do not know the status of this hire.

-Jeffrey has reached out to Hasan Khan. Hasan hopefully has spoken with Jeffrey by now. JE would like him to consider building an authentic hammam and indoor pool. He suggested that Hasan take a look at the Agua de Oriente web site.

-Jeffrey wants to make sure that anyone who has a credit card associated with his name has a credit check done on them through [REDACTED]. Jeffrey specifically mentioned [REDACTED] and [REDACTED] should have this done. I emailed Rich and Bella on this matter instructing them to either have each individual who holds a CC associated with JE do their own credit check or Rich or Bella perform the check. I do not know the status of this project.

-Jeffrey wants Doug Schoettle to sit down with Doug Stein and discuss with him coming to work for us and finishing up our projects. I do not know if Doug Schoettle has sat down with Doug Stein or not.

My one money saving idea I have already shared with you...the Seamless Web food ordering site! It is fabulous! Tons of restaurants and we are open with them all by providing our CC only once. No more having to open up accounts with time consuming applications. We can add the tip right on line so we are not exchanging cash. And most importantly, it streamlines our billing process and will free up some of Bella's time to do other things. Plus some restaurants offer 20% off by ordering through the Seamless Web....and as soon as I can get Bella to sign up, we will receive a 25% off coupon for recommending HBRK Associates.

I hope this all helps a little bit!

Les
