Written and directed by Matthew Brown, *The Man Who Knew Infinity* is the true story of friendship that forever changed mathematics. In 1913, Ramanujan (Dev Patel), a self-taught Indian mathematics genius traveled to Trinity College, Cambridge, where he forged a bond with his mentor, the eccentric professor GH Hardy (Jeremy Irons), and fought against prejudice to reveal his mathematic genius to the world. The film also stars Devika Bhise, Stephen Fry and Toby Jones.
